Greatest newspaper circulation per capita for any country in the world is being claimed for Switzerland, where a population of 4,000,000 has available a circulation from 305,000,000 to 405,000,000 from 3,000 newspapers and periodicals.

Uncle Ray's Corner

"Patriotic" Bismarck Set His Country on Road to Ruin

A few years ago, I wrote about Bismarck, a German statesman. Later I received a letter from a young woman who said she believed I should have said more in favor of him because he was "a great German patriot."

Surely it is true that Bismarck was a German patriot, but there is a question as to how great he was. He held a powerful place, and built up what came to be called "modern Germany," but did he do real good to the German people?

Looking back on history, we find that, in general, the Germans have been no more warlike than the French or British. All nations in Europe have had wars from time to time, but the Germans had no more than their share before the time of Bismarck. Since then, they have fought a number of wars, ending in the fearful second World war.

War brings sorrow, and any man who steers a nation along a path of conquest causes harm to his own people, as well as to others. For a time it may seem that he is making his country "greater," but in the long run the suffering comes.

The full name of Bismarck may be given as Prince Karl Otto Edward Leopold von Bismarck-Schoenhausen. I would rather, however, call him simply "Bismarck."

Bismarck was born in 1815, the year which saw Napoleon lose the Battle of Waterloo. Perhaps Napoleon had something to do with the outlook of this Prussian-born statesman. Prussia suffered a great deal during Napoleon's wars.

At any rate, Bismarck felt that he must do all he could to make Prussia strong. Never did he hold the throne, but he was "the power behind the throne" for many years. Serving under four monarchs, he was able to enlarge the size of Prussia, and to bring about a union of almost all the German states. Austria did not join the union, but a very strong empire was welded.

Bismarck used what he called a policy of "blood and iron." In other words, he used warfare to bring about what he wanted. If he could come back today, and see what has happened to Germany, he might be sorry that he set his people on the road to ruin.
