Calcutta Railways, in India, now has women inspectors at the various stations "to set right difficulties experienced by women passengers."

REDS' ATOMIC PLAN RAPPED BY AUSTIN

RICHMOND, Va Dec 8—(AP) Warren R Austin, chief American delegate to the United Nations, tonight called Russia's plan for control of the atomic bomb "a fraud on the peoples of the entire world It said it might' take years to bring together the U S and the Soviet Union on atomic and other world issues

'Disappointment awaits him who thinks the causes of Soviet obstruction can be easily or quickly removed," Austin said in a speech before the Richmond Council on Adult Education 'Years of determined and patient effort may be required" he added

'Debate alone will not do it Deeds alone can have the probative force to convince the Russian people that our strength and the strength of the other members of the United Nations is not a threat to their national existence and welfare

"We believe that collective action is the best guarantee of security and progress As we translate that belief into proof the foundations on which present Soviet policy is based should disappear '

Austin said that all members of the 12-nation U.N. Atomic Energy Commission except Russia and Poland believe that the Soviet proposals are 'completely inadequate."

Magicians in South Africa propose a closed shop to protect the profession from "quacks"—amateurs who abuse their ancient art
