Legion Maps 11-Point Post-War Plan

Program Will Be Put Before National Meet

INDIANAPOLIS, Ind., Aug. 19—An 11-point program for preserving the American way of life after the war is outlined in a preliminary report of the American Legion commission on post-war America made public today by its chairman, Col. Louis Johnson of Clarksburg, W. Va., a past national commander and former assistant secretary of war.

Chairman Johnson said the report constituted an advance expression of broad principles prior to the presentation to the meeting of the national executive committee in Chicago, Ill., Sept. 17, and to the 26th national convention there, Sept. 18, 19 and 20, of the commission's final and more comprehensive thinking on post-war planning.

The commission, composed of some of the best brains in all walks of life to be found in the American Legion, is making an exhaustive study of post-war problems. Chairman Johnson emphasized its principal concern was the charting of a platform of sound principles on which post-war reconstruction should be built.

In a nutshell, the commission's post-war program suggests:

1—A complete and conclusive victory as the first prerequisite of an enduring peace and a sound and expanding national economy.

2—Employment fostered by a system of free enterprise embodying the greatest encouragement to individual initiative and to every sort of sound business leadership with an effective implementation of a national program of fair and impartial treatment for both management and labor.

3—Prompt settlement of terminated war contracts by procedures substantially in accord with those recommended in the Baruch-Hancock report.

4—Disposal of surplus war materials and properties in accordance with the principles set forth in the Baruch-Hancock report.

5—As rapid abandonment of wartime controls over commodities, materials, prices and wages, as is safe to the national economy.

6—Revision of federal taxation to maintain a high level of business activity so there will be encouragement for the employment of venture capital in risk enterprises.

7—Availability of bank credits to qualified returning soldiers and sailors and without federal guarantees or participations to industrial firms trying to resume the production of civilian goods, in order that growth of small businesses may be encouraged.

8—Retention by the United States of such island outposts and bases as are essential to national security.

9—Prosperous agriculture thru an effective and efficient soil, water and forest conservation program, vigorous development of home and foreign markets and of new uses for agricultural products.

10—Immediate enactment of a peacetime universal military training act in order that the nation may remain at peace and may preserve its democratic way of life, that its manhood may learn the value of national unity thru the spirit and practice of national service, and that its moral and physical well-being be developed.

11—Further development of world teamwork thru the present principles of American foreign policies.

Including industrialists, businessmen, labor leaders, professional men, governors, farmers and others, the American Legion's commission on post-war America is composed of men and women of highest standings in their chosen fields of endeavor.

Serving with Chairman Johnson are: Gen. Leonard P. Ayres, retired, noted Cleveland, O., economist; R. H. Barnard, Toledo, O., manufacturing consultant; Past National Commander Frank N. Belgrano, Jr., Oakland, Cal., banker and insurance executive; Miss Jefferson I. Brown, state board of health executive, Phoenix, Ariz.; S. Toof Brown, Memphis, Tenn., businessman; Arthur E. Canty, Chicago, Ill., organized labor representative; Gov. Prentice Cooper of Tennessee; H. Elwyn Davis, Pueblo, Colo., businessman; Dr. Willard H. Dow of the Dow Chemical Co., Midland, Mich.

Shell Co. Terminal Victory Gardeners Plan Food Fair

The second annual Victory Food Fair of the Lima Shell Terminal Victory Garden club will be held Tuesday. Twenty-four employes, who last spring, as members of the club, planted vegetables, will be asked to enter the choicest samples of their homegrown produce in the fair. The prizes will be special certificates of merit, war bonds and stamps and ribbons awarded for the best vegetables in each class.

In addition to the awards, there will be fun and frolic carried on in the spirit of old time county fairs and harvest balls.

The prizes will be awarded by J. J. Kuehn, terminal superintendent and M. L. Barrett, Shell gardener and J. H. Warner, Allen-co agent.

The Lima terminal group is one of a score or more Victory Garden clubs organized last spring by Shell employees when the government urged all civilians to cultivate 10% more Victory gardens than there were in 1943. Each employee, at the time of enrollment was provided with a certificate of membership and during the growing season has been given instruction in "how to grow more in Lima in '44." Impetus to the gardening program has been added by furnishing each club member with a comprehensive "Garden Guide," promotional articles in the company's house publications, meetings at which were shown Victory garden films and lectures and personal advice of agricultural experts.

"Due to the increased demands of our armed forces, Lend-Lease, our Allies and the liberated territories, it has been imperative this year that all of us aid in the production of fighting foods, Warner added, "and the gardens this year have been successful. There have been considerable financial savings to the club members, healthful outdoor exercise, and added nutritious and fresh foods for all of our tables."

Activities Of Bradfield Center

The summer program of Bradfield Center has been very successful, and productive of good results. The following activities were sponsored, which enabled many of our group to spend their leisure time profitably.

The Story Hour class each week provided an opportunity for the young children to receive education, and recreation. The Fourth Street playground under the leadership of Miss Lucille Woodley, accomplished a worthwhile objective, that has been needed for years, in that section of our community. The results of her labor was compensated by producing a Midget Hit Pin team which won the City championship; also a Junior Girls team which won the championship in the same event. Verena Henderson won the City Girls Championship in checkers. The average weekly attendance at the playground was approximately 500 a week.

The girls and boys softball teams this year provided wholesome recreation for many.

During the coming week the horse shoe tournament will be held Wednesday, Thursday and Friday All interested will draw for position Tuesday.

The following service boys have found recreation at the Center: Paul S. Jones, Earl Totty, Thomas Nelson. The latter two were former softball players.

Club And Lodge Activities

The Protected Home Circle will conduct an installation of officers service at 8 p. m. Wednesday in Central hall, with State Deputy F. C. Abell of Dayton as installing officer. A social hour will follow the service.

Slowness Is Apparent In Grain Trading

CHICAGO, Aug. 19—(AP)—Congestion developed in the rye futures market today and most of the activity in the wheat pit was in the nature of changing with cash grain houses taking the September contract and offering the December in exchange at the same price. Commission houses bought the December wheat and sold the nearby futures.

Rye was weak and the market was slow Local traders limited their dealings in preparation for the week-end. Rapid war developments and the fact stock exchanges were closed discouraged extension of market positions.

The oats trade was light and the market easier. Scattered selling developed at the start in response to a weaker rye market and more favorable weather conditions in the corn belt.

At the close wheat was 1-8 to 3-8 lower than yesterday's finish, September $1.54 3-8 to 1-2. Oats were 1-8 lower to 1-4 higher, December 71 1-2. Rye was 1-4 to 1 5-8 lower, September $1.05 5-8 to 3-4. Barley was 3-8 to 1-2 lower, September $1.14 1-2.
