Hutchinson Asks Aid for Russia

Wants Replacement of Truman Doctrine

Replacement of the Truman doctrine with a doctrine of cooperation and aid to Russia was advocated Friday night by Dr. Paul Hutchinson, managing editor of the Christian Century, in a speech to members of the Madison Protestant churches in the First Congregational church.

"I know that one who advocates a policy of this sort will be called naive, soft-boiled, and an appeaser," Dr. Hutchinson said, "and I know that it involves taking a chance. Any policy these days involves taking a chance."

Take a Chance

"The Truman policy involves taking a chance and I think it is a very poor chance," he added. "I prefer the other kind of approach because I feel that it comes nearest to applying the principles of Christian wisdom and I think it will work, for I believe Christianity holds the key to man's problems.

"Of one thing at least I am sure," he continues, "it is time for us in America to stop being so light-hearted about the nature of the war that is being prepared. Nothing less than the extinction of man is at stake. Therefore I say it is now or never for taking a chance on the spirit of Jesus Christ in our international relations."

Outlines Program

Dr. Hutchinson outlined the following 5-point program as a method of avoiding a war with Russia a decade or two decades hence:

ONE—Abandon any policy that appears to put a "strangling halter" around Russia.

TWO—Offer generous economic aid to Russia, to be given in such a way that her people will realize it and see in it evidence of our desire for friendly relations.

THREE—Drop the atomic bomb threat. Work out a compromise that will at least stop the manufacture and stockpiling of atom bombs and eliminate the jittery state of apprehension on the part of the Russian people as to when we will drop the atom bombs.

FOUR—Provide generous economic and social aid to Russia's needy neighbors.

FIVE—Give the Russian people time to get over their fright and prove that the belief of their leaders that we plan to attack is ill-founded.

Anti-Stove League Foiled by Psychology

LITCHFIELD, Conn. —(U.P.)—A stove once caused a near split in a church group near here.

Elders were convinced a cold church was more conducive to salvation than a warm one. Others were of a different mind and the congregation divided into a pro-stove and anti-stove group.

One Sunday folks arriving at church found a pro-stove member standing beside a newly-installed stove, briskly rubbing his hands. Anti-stove people complained, mopped their brows in distress and one indignant woman fainted from the "heat."

At this point, the pro-stover placed his bare hand on the stove, proving to the "perspiring" anti-stovers it was stone cold.

Perfect Score Made in Stiff Navy Test

HOUSTON, Tex. —(U.P.)— Paul B. Wells, 18-year-old student at Texas A. & M. College, could claim the title of the brainest enlistee in the volunteer naval reserve.

Wells made a perfect score in the stringent navy aptitude qualification test. He not only disposed of every question but completed the test in only 20 minutes, 25 minutes under the time allowed.

Lieut. C. E. Johnson, in charge of the recruiting station in Houston, said he believed it was a national record. It was called to the attention of naval authorities.

Restaurant Men Study Quality of Their Coffee

CHICAGO —(U.P.)— The restaurant industry is taking a long hard look at the coffee it serves.

The National Restaurant asso. has joined with the Pan American Coffee bureau and the National Coffee assn. in a survey of coffee brewing equipment and methods of making and serving coffee in restaurants.

The organizations also will survey customer's preferences in coffee service.

Results of the research will be used to establish minimum specifications for coffee - brewing equipment.
