"Immortal Sergeant" Opens At Lyric Theatre On Monday

"Immortal Sergeant," a great story of a man in love and in war, opens Monday at the Lyric with Henry Fonda and Maureen O'Hara in the lead roles. Also showing is "Wallaby Jim of the Island."

At the State are "Lady of Burlesque," a fine mystery with Barbara Stanwyck, and "The Constant Nymph," a love story with Charles Boyer and Joan Fontaine.

All who saw "Thank Your Lucky Stars," at the Ohio over the week-end termed it a fine musical comedy production. It is filled with many of the stars of the screen and radio entertainment world.

"The Scorched Earth," dealing with the Japanese aggression of China, opens Wednesday at the Sigma. Showing thru Tuesday at the Sigma will be "Sherlock Holmes Faces Death," and "Swing Shift Maisie."

Thrilling patrons at the Quilna over the week-end was "The Destroyer," adventure-packed story of the sea. Edward G. Robinson has a prominent role and in the supporting cast are Glenn Ford and Edgar Buchanan.

Monday and Tuesday will be the final days for the showing of "Hit Parade of 1943," at the Drive In theatre.

LYRIC

George Houston, who is being starred as "Wallaby Jim" in the new series of romantic-adventure films of the South Seas, the first of which, "Wallaby Jim of the Islands," opens at the Lyric theatre on Monday is seen fighting or singing thru most of the picture.

The story recounts the adventures of a roistering, singing seafarer, skipper of a pearl-fishing schooner, who battles a band of cut-throat pirates who try to rob him of a rich pearling ground which he has discovered.

QUILNA

Little Caesar is on the rampage again . . . but this time he's after the Nazis as a rip-roaring Chief Boatswain's Mate in "Destroyer," now showing at the Quilna theatre.

Edward G. Robinson, who created the famous underworld character on the screen, has received word from the crew of a United States Bomber that they have named their ship after his film character and that a caricature of him adorns the nose of the Flying Fortress. Military secrecy prevented information of where the bomber was doing its stuff, but Eddie is keeping his fingers crossed and waiting for more news when it can be released.

Marguerite Chapman and Glenn Ford are the featured players in support of Robinson.

SIGMA

Coming to the Sigma theatre Wednesday is one of the finest pictures of this or any year, in the opinion of critics from coast to coast. Starring China's four hundred million people, "The Scorched Earth," a documentary epic of Japan's rape of China will move you with its powerful picturization of what has transpired among the peaceful Chinese since Japan's initial move into Manchukuo in 1932. With nothing deleted, with the truth for once allowed to shine thru in every reel, America at last can see with its own eyes the brutality, the bestiality and the ruthlessness of the Rising Sun.

FIRE AT THEATRE

DELPHOS, Sept. 27 — There was little loss when fire destroyed some cardboard in the exit lobby at the side of the Capitol theatre about 11:30 p. m. Saturday. The blaze, extinguished by firemen, did not interfere with the late Saturday program. Firemen expressed the opinion the fire might have been caused by a lighted cigaret.

GRADE 1 TIRE RULE TIGHTENED

WASHINGTON, Sept. 27—(AP)—The Office of Price Administration today stopped issuance of grade one tire rationing certificates to "A" and "B" gasoline ration book holders.

The OPA announced that stricter tire eligibility rules were necessary to bridge the gap between the dwindling supply of pre-war tires and the expected production of synthetic rubber tires.

The new order requires that a driver have gasoline rations for essential mileage of at least 601 miles a month to be eligible for grade one tires. Previously drivers who had coupons for 241 essential miles a month were eligible.

CANCEL CONVENTION

COLUMBUS, Sept. 25—(AP)—The executive committee of the Federated Democratic women of Ohio announced today the cancellation of its 1943 convention, scheduled for this month, because of wartime travel restrictions.

TEACHERS OF PUTNAM-CO ELECT FT. JENNINGS MAN

OTTAWA, Sept. 27—Closing sessions of the 73rd Putnam-co Teachers' Institute were held in the courthouse here Saturday with election of officers as a highlight.

C. W. Specht, Ft. Jennings superintendent, was chosen president to succeed H. C. Wetherby, Continental superintendent. Merwin Hilty, superintendent of Ottawa public schools, was named vice-president and Miss Mildred Allison, of Continental, the secretary-treasurer.

The teachers listened to information-packed lectures by five speakers during the institute which began Friday afternoon and include a public program Friday night in the auditorium-gymnasium which attracted about 400.

It is ridiculous for the American people to suggest that Russia intends to attempt to plant the seed of communism in the United States after the war is over, it was declared by Dr. Richard Struna, Austrian authority on Russia, during his address Friday night.

Russia's sole purpose in this war is to preserve its country, customs, language and way of life, he asserted. There are four reasons why the Russian Army has been able to fight off the German forces.

One is the vast distances in Russia, another is the severe winter weather, a third is the fact that Russia has one million men in the cavalry which is able to operate when winter forces mechanized equipment to bog down, and a fourth is the high morale the Russian people have maintained.

Dr. Struna opined that Adolph Hitler "attacked the whole world without reason when he attacked Poland and his punishment is coming closer and faster than most people realize."

Another speaker was Delbert Woodford, assistant director of education in Ohio. He told the institute that teachers may make their greatest contribution to the nation's war effort by doing a better job of teaching than ever before and by using the war as an opportunity to cultivate a deeper and more appreciative understanding of their pupils.

He urged the continued cooperation of the schools in the war program with special emphasis on pre-induction training, physical fitness programs and the mastery of the fundamental skills.

Clyde C. "Slim" Williams presented two lectures on Alaska in which he stated that residents of the United States never can know the true Alaska unless they visit there.

Dr. Felix Held, professor of economics and business administration at Ohio State university, and Dr. B. A. Stevens, research director of the Ohio Education-assn, were the other speakers.

Special music was provided by the various schools. Dr. H. A. Neiswander, president of the Putnam-co board of education and county health commissioner, spoke during the program on the health standards in the schools.

A MAN AND A RAILROAD
—they're guided by the same code

We all know someone like Ed Bell. That's not his name, but it will serve.

Ed was doing pretty well in business fifteen years ago. He was working hard, looking ahead, had rosy plans for the future.

But along came the depression and you know what happened. Borrowing, debts, a struggle to keep going.

Ed stayed at it. Slowly he's climbed back on his feet. Today he's working in a war plant—working harder than he ever worked before.

He's got responsibilities, plenty of them, and recognizes them, too. Taxes to be paid. Debts to be paid off. War bonds to be bought.

And Ed has always put first things first. He likes to buy things for his family as much as any man, but he feels that the meeting of his obligations should come before anything else.

* * *

Many railroads have a similar history, and are now faced with the same kind of obligations.

They have been through a lot in recent years. High costs for labor, material and taxes, and low revenues due to depressed traffic. The average net earnings of all our railroads from the 1929 market crash to Pearl Harbor amounted to only a fraction over 2% per year on investment.

It is small wonder, then, that thirty-seven Class I railroads sought relief in bankruptcy. And that many others had a tight squeeze because of the burden of debt they carried.

Recently railroad income has improved. With the huge load of war traffic, they averaged for 1942 about 5½% return on investment.

* * *

Now they are faced with the same question that confronted Ed Bell. Shall they pay out these earnings to their families of stockholders, or shall they use them to reduce their overpowering burden of debt—so that once again our railroads can become sound and solvent institutions?

In the interest of both their stockholders and the public most of our railroads—and this includes the Nickel Plate—are currently placing debt reduction first.
