TITO EMPHASIZES YUGOSLAVIA WILL BE INDEPENDENT

KOPAR, Yugoslavia, Nov. 21—(AP) President Tito denied and denounced today what he called malicious accusations that Yugoslavia plans to return to the Russian-led Cominform, from which it was ejected in 1948 in a quarrel over communist policies.

He recorded Yugoslavia's decision to pursue her own independent policies. He said he had no intention to break off relations with Britain, France and the United States, which proved "at the most trying moment that they were our friends," or to drop efforts to improve this country's relationship with Russia.

He acknowledged Yugoslavia has reestablished normal relations with the Soviet Union, expressed hope that they would "improve even more . . . on a basis of equality," and said Russia now considers Yugoslavia an "independent and sovereign country, which Stalin refused to do."

(Tito thus became the first communist chief of state to denounce Stalin publicly and to praise the new leaders of the Kremlin for renouncing policies of the dictator who died in March 1953. When Stalin ruptured Soviet-Yugoslav relations, he denounced Tito as a fascist and a henchman of Western imperialism).

Speaks Before 35,000

Tito spoke before a crowd officially estimated at 35,000 in this Adriatic port city which was incorporated into Yugoslavia last month as a result of a compromise settling this country's nine-year-old feud with Italy over the future of the territory of Trieste.

He rejected any possibility of Yugoslavia's participation in a Soviet-proposed conference on European security, saying that, while it was a "fine idea," it was doomed to failure because only a limited number of countries would participate.

Tito spoke for almost 45 minutes. He was accompanied here by several members of his powerful federal executive council.

All the emphasis of his address was on Yugoslavia's policy of independence from domination by either the East or the West. This could be considered of some significance in view of speculation he might attempt to promote a "third force" in world affairs.

"It would be stupid," he said, "to object to our negotiations for improving relations with the Soviet Union" and Yugoslavia would ignore any such objections from the West.

But he added that Yugoslavia advises Russia and the other Eastern countries "that we cannot improve relations with them at the expense of relations with the Western countries."

Pays Tribute to Aid

He paid tribute to the economic help Yugoslavia received in the lean years between 1948 and now. Speaking of the Big Three Western powers, he said that "so far these countries have not shown they are our enemies, but at the most trying moment that they were our friends. We have no reason to break with them and we have no intention of breaking with them."

"Those in the West who hope Yugoslavia will one day turn against socialism and join some imperialistic camp should realize their wishes are futile," he said.

"On the other hand, it should be clear to the East that Yugoslavia has no intention of returning to the position that it occupied in 1948."

LONG LAKE, Mich. (AP)—Walter Hagen, many times a golf champ, now makes his summer home here. Hagen spends a lot of his time hunting and fishing, but occasionally he whiles away an afternoon driving golf balls into the lake.
