BELLS: "The Bells of St. Mary's," starring Bing Crosby, will open Mar. 1 at the Orpheum theater.

World War III Due in 15 Years—Unless, Atom Scientist Says

CHICAGO —(U.P.)— World War III will come in 10 to 15 years unless atomic energy is removed from military control, Dr. Harold C. Urey, who directed part of the research on the atom bomb, said.

Urey, a Nobel prize winner from the University of Chicago, declared:

"The desperate time regarding atomic energy will be in about five years. By that time, however, it will be impossible to stop the atomic armament race which already has begun in the United States.

"Atomic scientists responsible for the development of this devastating force have come out of their so-called theoretical laboratories to fight for passage of the McMahon bill, which they believe is the 'preventative medicine' that will help avert World War III," he said.

Passage of the McMahon bill, he said, would place control of atomic energy in the hands of the people through a civilian commission.
