ADVANTAGES

WITH A GAS-FIRED INCINERATOR

Fire-hazardous paper wrappings, bags, boxes, cartons . . .

—safely disposed of while ridding your basement of dampness.

Disposing of bandages, sanitary napkins, household rags, etc. . . .

—supplies enough fuel to circulate warm, dry air for a basement recreation room.

Table and kitchen waste not disposed of in health-hazard garbage can . . .

—will make your basement warm and usable.

A gas-fired incinerator will solve your trash-disposal problems permanently and with benefits to you in safety, health, and comfort.

The heat provided by the burning of trash, waste, and garbage will rid your basement of seasonal chill and dampness, will keep your laundry, recreation room, and workshop dry and comfortable. It does away with the necessity of annoying trips to the backyard garbage can. You have no danger of a home-destroying fire due to an accumulation of trash.

The modern gas-fired incinerator is a neat, compact unit that is inexpensive to install and costs little to operate. Investigate the advantages a gas-fired incinerator can offer your home.
