Answer to Previous Puzzle

ANSWERS TO QUESTIONS

By HASKINS

A reader can get the answer to any question of fact by writing The Long Beach Press-Telegram Information Bureau, 316 Eye St., N. E., Washington 2, D. C. Please inclose three (3) cents for return postage.

Q. How large a portion of the total popular vote in Presidential elections is polled by the minor parties? B. L.

A. Since 1924, all minor parties combined have polled from ½ to 2½ per cent of the total popular vote.

Q. How many buildings were torn down to make room for Rockefeller Center in New York City? P. R. V.

A. Two hundred and twenty-nine small structures were razed to clear the 12 acres occupied by this group of buildings.

Q. What is the normal temperature of a cold-blooded animal? E. P.

A. Cold-blooded animals, such as fish and reptiles, take on the temperature of their surroundings. Unlike warm-blooded animals, they have no means of regulating their own body temperature.

Q. What is a visa? J. E.

A. A visa is an indorsement made on a passport by the proper authorities, showing that the passport has been examined and that the bearer may be permitted to proceed to the country by whose representatives the indorsement was made.

Q. What is the record speed for a sailing ship? D. M.

A. Donald McKay's clipper The Lightning sailed 436 miles in one day, a world's record which still stands. The American clippers are considered to be the fastest and most wonderful sailing craft ever built.

Q. What causes the hissing sound when a can of vacuum packed coffee is opened? E. S. H.

A. Roasted coffee generates gases while standing, and it is the outward rush of these gases that produces the sound.

Q. What is the average proportion of water in vegetables? N. S. D.

A. Most vegetables average between 80 and 90 per cent water but there is considerable variation, dry soybeans, for instance, containing only 7.5 per cent.

Carnival

By Dick Turner

"No, no, Miss Montague! You register shock! Imagine yourself walking on the street and no one comes up to you for your autograph!"

McKENNEY ON BRIDGE

BY WILLIAM E. McKENNEY

Charles H. Goren's teachers' convention, held recently at the Hotel Pierre in New York, was the first convention of bridge teachers held since before the war. It was a pleasure to see many of the old-timers there.

The first teachers' convention that I attended was back in 1928 with Milton Work. Bridge teachers are in demand right now because more and more people are discovering that bridge has a lot to offer them, not only as an intellectual pastime, but also in sociability and companionship.

Mrs. A. Leonard Guitar of St. Joseph, Mo., showed me some of the hand she uses in lessons, and today's hand is one of them.

When declarer goes up with dummy's king of clubs on the opening lead, East wins. Now the average player might lay down the queen of clubs, declarer would trump it, pick up the adverse trumps and make 10 tricks in diamonds and hearts.

Mrs. Guitar pointed out that

♠ 7 6 5 3
♥ A K 4 3
♦ Q 9 7
♣ K 4

♠ A Q J 9 4
♥ 10 8
♦ 6 4 3
♣ 10 9 5

N / W E / S — Dealer

♠ 10 2
♥ Q 9
♦ 8 5
♣ A Q J 8 7 6 2

♠ K 8
♥ J 7 6 5 2
♦ A K J 10 2
♣ 3

Rubber—Neither vul.

South	West	North	East
1 ♥	1 ♠	3 ♥	4 ♣
Pass	Pass	4 ♥	Pass

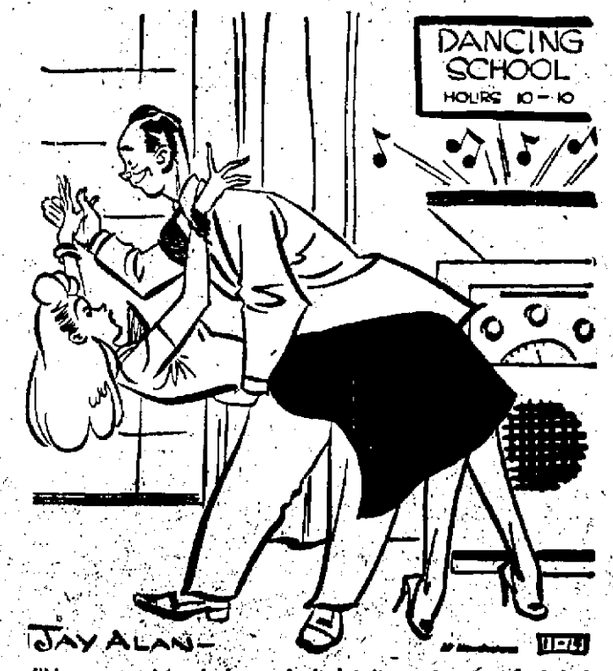
Opening—♣ 10 14

the ten and deuce of spades are ideal cards in East's hand. West had bid spades, so instead of trying to cash a club, East should return the ten of spades. South covers, West wins with the ace and cashes the queen of spades, on which East plays the deuce. This tells West that East has no more spades.

South does not have the ace and king of hearts in his hand, and therefore, in order to justify the bidding, he must hold the ace and king of diamonds. It may be that South's opening bid was made without a top honor in hearts, and on that basis, Mrs. Guitar said that West can make a very fine defensive play by leading the jack of spades. This gives East the opportunity to ruff with the queen of hearts and set the contract.

Modest Maidens

By Jay Alan



"Now, now, Mr. Jackson, don't let it go to your feet just because you were voted the man most likely to succeed!"

SENATOR SOAPER SAYS:

The 20-inch telescope reflector is about to be installed, on Mt. Palomar. It is expected to provide answers to all sorts of riddles of the universe, except where are we?

Hypocrisy is where, under guise of conserving food, banquets are in reality called off to duck the ensuing oratory.

"A new electric brain solves in 10 minutes a problem that would take three years of an Einstein's time." The smart shopper for an adding machine will ask, "What's its mental age?"

Overpublicizing the commies among movie actors could be a mistake. Threaten to put their names in pink lights on the marquee and you'll have them all joining.

WHAT OTHERS ARE SAYING

Women have the power to shape the destiny of America at the ballot box.
—*President Truman.*

Americans have got to recognize that it is cheaper to have an expensive peace than another war.
—*Sen. Irving M. Ives (R.) of New York.*

Further limitation of United States armaments must wait until the good will of nations is exemplified by deeds as well as words.
—*Adm. Chester W. Nimitz, Chief of Naval Operations.*

The shorter the skirt the better. But, of course, there must be some limits.
—*Sir Stafford Cripps, British Minister of Economic Affairs.*

The country should be advised we are not going back to low prices. We are not going back to $1 wheat, 10-cent cotton and 4-cent hogs.
—*Sen. Elmer Thomas (D.) of Oklahoma.*

Food is a vital factor in our foreign policy. And the attitude of Americans toward food can make or break our efforts to achieve peace and security throughout the world.
—*Secretary of State Marshall.*

If we do not provide extensive aid we are told that we are heartless and irresponsible; if we give assistance, then we are acting politically and invading the sovereignty of others.
—*William Thorpe, Assistant Secretary of State.*

Let's Explore Your Mind

By ALBERT EDWARD WIGGAM, D. Sc.

Answer to Question No. 1

Apparently not. Denver U. psychologist Alice M. Hunt compared the ideas and ideals of two large groups of couples, on matters of religion, honesty and 15 other ideals, with the number of years they had been married. She found those couples who had been married many years were no more alike than those who had been married a short time.

Answer to Question No. 2

Probably yes. Dr. Joseph Hanna compared the earnings of two large groups of workers of equal mental ability, but one "well-adjusted" and happy, the other "maladjusted" and unhappy. Although the unhappy group averaged two years older, their weekly earnings were considerably lower. Dr. Hanna concluded this difference in wages was due to personality differences.

Answer to Question No. 3

Christopher Columbus and Alice in Wonderland. Owen D. Young is reported to have said that when Columbus started out he didn't know where he was going; when he got there he didn't know where he was, and when he returned he didn't know where he'd been. When Alice asked the Cheshire Cat, "In which direction do I go?" the Cat answered, "Where do you want to go?" "I don't know," replied Alice. "Then," said the Cat, "it doesn't make any difference." Nuff said.

CONQUER YOUR FEARS

New 28-page booklet prepared by Dr. Wiggam from the research of Dr. David Mitchell, consulting phychologist, Shows you how to analyze and end your fears. Send 10 cents and stamped (3-cent) self-addressed, return envelope. This offer is made without profit and only as a service to readers. If you wish a copy address Dr. A. E. Wiggam, care of this newspaper. Just ask for "The Conquest of Fear."

(Copyright 1947, John F. Dille Co.)

EMBARRASSING

IT'S GETTING to the embarrassing point in this country where a public figure has reason to feel somewhat unpatriotic unless he's been named by Andrei Vishinsky as a warmonger.—New York World-Telegram.
