SENATOR SOAPER SAYS:

Mr. Truman's airy confidence in the November outcome is remarked on wonderingly by all visitors. At the report, our Harry seemed as relaxed as Bing Crosby in the big emotional sequence.

A word of warning is due Texas zoo monkeys that chew bubble gum. Let this go on and they may descend to people.

Top dough in Hollywood for the year past went to Miss Betty Grable. Here, though, the question of visible support never had been seriously raised.

One of the original Quiz Kids of radio has up and married. And of course everyone will say "education begins from here"—truer words than which were never spoken.

Our thoughts are with the peacemaker, Bernadotte, in his thankless task of dealing with customers who cry: "I reject your proposal! What is it?"

"Tarzan in his next film will sound a new cry"—which for a time may make for as much confusion in the jungle as a change in a city telephone number.

A dietitian talking up seaweed as a food says the Jap soldiery consumed it freely. However, our boys did O. K., too, and without recourse to the marine types of spinach.

Accounting for an old scar on the shin, while on the beach lately, a local ancient found it necessary also to explain the game of duck-on-the-rock to a grandchild.

North American Newspaper Alliance.

ANSWERS TO QUESTIONS

By HASKINS

A reader can get the answer to any question of fact by writing The Long Beach Press-Telegram Information Bureau, 316 Ere St., N. E., Washington 2, D. C. Please inclose three (3) cents for return postage.

Q. How does it happen that all the blossoms of a tree open at the same time? N. N.

A. This synchronism is due to the fact that the flower buds were formed in the preceding summer and that in the spring they are subjected to approximately equal stimuli of light and heat. These things together with inherent tendencies cause all the buds to respond in approximately equal time.

Q. How many languages does Arnold Toynbee speak? L. C. F.

A. The English historian speaks five languages fluently and according to some biographers is said to think almost as readily in classical Greek as in English.

Q. What part of the body is usually attacked first by a bee? T. O. S.

A. A bee generally strikes for the eye if a person's face is unprotected.

Q. How many trolley busses are in use? F. E. R.

A. The number operating in United States cities is 4298. The trolley bus is a cross between a streetcar and a motor bus.

Q. In what year was the National Spelling Bee established? R. V. L.

A. The National Spelling Bee was instituted by the Louisville (Ky.) Courier-Journal in 1925.

Q. What is the purpose of the Human Engineering Laboratory? L. L. Y.

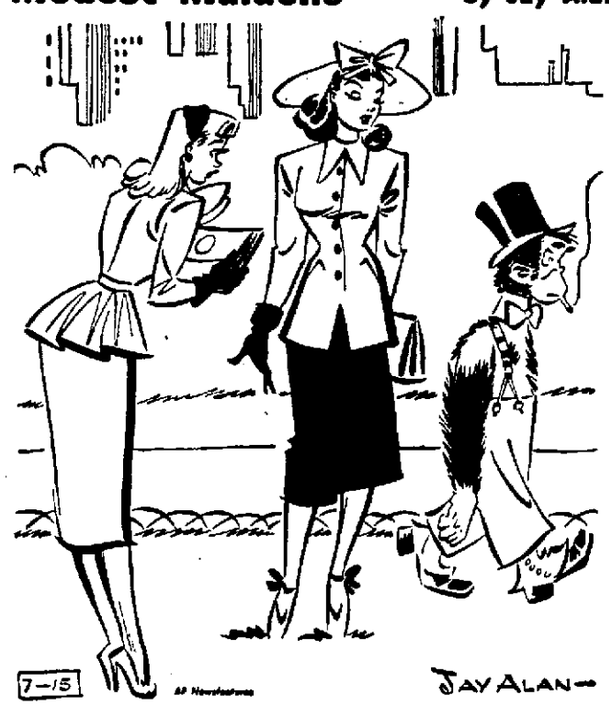
A. The Human Engineering Laboratory was founded in 1922 by Johnston O'Connor, and now consists of a large group of specialists whose business it is to determine what natural abilities people have for certain kinds of work. Anyone aged 9 years or over can be tested.

Q. It was recently stated that the new element, curium, has a "half life" of five months. What does this mean? R. S. Y.

A. "Half life" means that one-half of the element disintegrates in five months, half of the remainder in another five months, and so on.

Modest Maidens

By Jay Alan



"Honestly, one sees the queerest looking people in this neighborhood!"

Let's Explore Your Mind

By ALBERT EDWARD WIGGAM, D. Sc.

Answer to Question No. 1

This column thinks extremely unwise. I don't think the Senator (Capper from Kansas) understands the present American marriage situation, either from the social or eugenical standpoint. It might stop some Reno divorces, but they are only a minute percentage, and there are border countries. Also, public sentiments are radically different in different states, and enforcement would cause endless legal and religious and social conflicts. New divorce law is not the remedy, but better marriage education beginning in the grades.

Answer to Question No. 2

The security of love. I heard Dr. Katharine W. Taylor, author of "Do Adolescents Need Parents?" say many parents destroy a child's self-confidence by saying, "Mother won't love you if you do that." They should say, "Mother loves you and will always love you. Nothing you can do will keep her from loving you, but she does not like what you are doing."

Answer to Question No. 3

No. A U. S. Department of Agriculture Bulletin says, (quoted in Eugenical News) "dryness, good ventilation and freedom from drafts" are prime requisites for sheep. Little pigs "must have plenty of sunshine." Chicks and laying hens "need comfortable homes, dry and roomy—etc." Yet millions of children (and adults) live in filth, cramped for room, no medical care, poor food—no sunlight—well, let's quit swearing about it and do something!

Your SUCCESS IN MARRIAGE Tests

Are you a good risk as a marriage partner?

Can you be happy with the partner of your choice?

What are the signs that foretell the success of any marriage?

This booklet will be sent at cost, 15c and a stamped (3c) self-addressed envelope. Address Dr. Wiggam, LET'S EXPLORE YOUR MIND, care this newspaper.

McKENNY ON BRIDGE

By WILLIAM E. McKENNEY
America's Card Authority
Written for NEA Service

OUR lesson hand today comes from Mrs. Sadie Machlin, who was formerly my financial secretary and is still associated with the American Contract Bridge League. She is the sister of the well-known national tournament director, A. M. Sobel.

Mrs. Machlin brings out a fine lesson in today's hand, not only in execution of an endplay, but discarding a loser at the same time. After winning the opening lead of the diamond jack in dummy with the queen, she saw that she had a loser in the four of clubs, and if the club finesse was wrong, that also would be a loser. Of course, if the diamonds broke three-three, that would take care of one of the losers.

The first thing she did was to take three rounds of trumps. Before cashing the two high diamonds, however, she must strip her hand and dummy of hearts; so she cashed the ace and king of hearts and ruffed the nine-spot. When West dropped the queen, Mrs. Machlin was sure there were no more hearts in the West hand.

Now she cashed the other two high diamonds, East showing out on the third round of diamonds. The six of diamonds was led from dummy, declarer discarding her four of clubs. She knew that West would not have a spade, a heart or a diamond to lead back. The only lead he could make was a club, right into the ace-queen.

Although this is not a difficult hand to count down, too many beginners would make the mistake of gambling on the club finesse too early.
