ASTHMA COUGHERS FIND QUICK Help—Sleep and Breathe Well

Thousands of men, women and children are now discovering it is no longer necessary to suffer from stubborn coughing, difficult breathing and ruined sleep, caused by recurring attacks of Bronchial Asthma, without the benefits of the modern, scientifically produced medicine called MENDACO. Many say they have not suffered from a hard attack for many months.

MENDACO is not a smoke, injection or spray, but is in little, easy-to-take tablets, and works through the blood, thus quickly reaching the lungs and bronchial tubes. Usually the very first dose goes right to work helping relax that clogged-up, stuffy feeling in the chest, then helps Nature loosen and clean out that thick, strangling mucus, thus relieving coughing. Oh, what a blessing it is to get good fresh air into your lungs and find sound sleep and natural energy being promoted.

Many who have suffered for years find it hard to believe that such a blessing as MENDACO is here, but every day thousands are giving thanks for what seems almost like a miracle to them. Don't suffer another day without finding out for yourself about MENDACO. It's tried and true—proved by millions—over 5 million packages sold. So get MENDACO from your druggist under money-back guarantee today and take this opportunity to join the happy thousands who give thanks for MENDACO.
