LOOKING AT LIFE

By Erich Brandeis

America has the finest advertising men in the world, no doubt about that.

They can advertise almost anything—from garbage cans to $5000 automobiles, from insect powder to mink coats.

They can go into ecstasies over a hole in the ground and call it "Sunshine Manor". They can transform shacks into fairy castles by just the use of words.

They can entice dollars that should go into food, to be used for perfumes, and by calling hats "chapeaux" they can induce our dear ladies to make darn fools of themselves.

Yet, with all this artistry, our American advertising men have completely overlooked one thing — AMERICA.

Europeans and Asiatics come here almost daily and stand in awe at the America of which they have never heard.

Oh yes, they know all about American television, about radio washing machines, refrigerators, motor cars and the many other PRODUCTS which you can see, touch and use.

As an industrial nation we have no equal, they all know that.

But when it comes to the spiritual side of our life—they may know Dagmar, Uncle Miltie, Howdy Doody and Faye Emerson.

But that is as far as it goes.

Our "Voice of America", intended to tell the peoples of the World about us, has been sadly negligent in letting them know our SPIRITUAL virtues.

Ed Barrett, Assistant Secretary of State and head of the "Voice," lived right across the river from me before he moved to Washington.

It was a beautiful spot—tall trees, wild ducks, squirrels, birds of all kinds, magnificent sunsets and all the other wonderful things that Nature has given us so richly.

Of course he could not very well have told Europe and Asia about the squirrels. They might have thought he spoke about the squirrels in the Pentagon Building.

But why is it that such glorious surroundings did not inspire him to do better

Is it perhaps that Ed and all of us here in America are so used to the glories of Nature and of the Spirit that we don't see the woods for the trees?

Is it perhaps, that we don't know HOW to RECOGNIZE OUR spiritual values?

Thiam Lam, a 23-year-old student from Singapore, probably expressed it the other day when he said "Americans are living at such a fast pace that they never have time to form spiritual values."

Look at our highways.

People wil race along those highways at fifty miles an hour, never stopping to look at the beautiful scenery along the way—just to get to the next hot dog stand.

They will get to the day's destination so tired that they never stop to look up at the waterfall nearby or at the sun going down behind a snow-capped mountain.

They have time to listen to "On top of the Smokies" on a juke-box, but drive through the Smokies like greased lightning.

I have seen tourists standing in front of St. Patrick's Cathedral in New York just because it is a "must" on the sight-seeing list.

Yet, inside that Cathedral, is God —waiting for them.

AUNT DORA

It's up to you . . . but if your live on the farm, we advise the use of bottled gas. Be prepared against the invasion of your family's health . . . meet the invasion of winter's cold, scaled food due to improper refrigeration, emergencies requiring hot water, improperly cooked foods . . . with bottled gas from THE RURAL GAS CO. Call Trumbull 8-2628, today.

THE RURAL GAS CO.

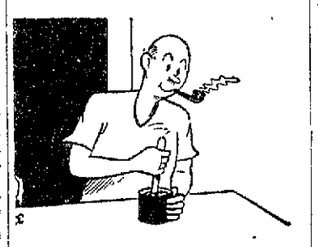
Fix It Yourself

By HUBBARD COBB
(The Handy Man)

MISCELLANEOUS



A row of trees or shrubs, or even better a row of each, between your house and the road will take care of the good deal of noise from traffic, etc. The more compact the shrubs the better.

Be careful about mopping floors with water where there is little or no base trim around the plaster wall. The plaster will absorb the water and cause the paint to peel.

Boring a series of holes all of equal depth can be accomplished easily if a band of adhesive tape is put around the bit for the right depth. Drill until the band just touches the wood surface.

As shellac dries in a matter of a few hours it makes a fine undercoater for paint on rush jobs

Putty that has become hard and difficult to work with can be made pliable by mixing in a little linseed oil. Work the oil into the hardened putty with a knife.

Asphalt floor tiles become soft and less brittle and therefore more easy to work with if warmed slightly with an electric iron set at a medium temperature.

Leaky and defective house gutters are worse than no gutters at all. If the gutters can't be repaired and you can't get new ones, yank them off before they start a lot of trouble.

U. S. ATTORNEY RESIGNS

WASHINGTON, Sept. 14 -- (AP) Irving Saypol resigned today as United States attorney for the southern district of New York.

President Truman accepted the resignation effective at the close of business today.

Saypol been nominated by both the Democratic and Republican parties for membership on the New York state supreme court. He has been with the Justice department since 1948.
