# Monteux Leads Symphony Tonight

By FRED RUSSELL

Pierre Monteux will make the first of two guest appearances on the broadcasts of the Boston Symphony orchestra tonight over WRCA radio at 8:30 o'clock. The conductor, now on the roster of the Metropolitan Opera and guest conductor of leading symphonies orchestras, was for many years conductor of the San Francisco Symphony. Last season he was guest conductor in the final year of the NBC Symphony orchestra.

Monteux has selected music of Robert Schumann and the contemporary American composer Roger Sessions for the one-hour radio concert, starting with the "Symphony No. 3 in E-Flat Major" by Schumann. Sub-titled the "Rhenish" symphony, the work is in five movements.

Sessions will be represented by his incidental music for "The Black Maskers." The four sections of the suite are dance, scene, dirge and finale. The music was written in 1923 for the play of the same title by Leonid Andriev. Many works of the Brooklyn-born composer have been played by leading orchestras in this country and abroad.

*World Debut In Hartford—*

# Hospital to Use Dense, Dry Fog In Treating Breathing Disorders

HARTFORD, Jan. 29—(AP) Hartford hospital says it soon will begin placing some of its patients in a dense but dry fog for treatment of serious breathing disorders.

The hospital said in an announcement it is currently installing two newly-developed machines which can create a thick fog but at the same time keep the patient completely dry.

The machines create at a prescribed temperature a thick fog without causing water to precipitate. Present equipment sprays a fog into the room but soaks patient, bedclothes and nurses alike and requires floor drains to carry off water.

The announcement said it will be the first time the new machines are used in the world. Installation will be completed in about two or three weeks.

The machines—air conditioners that super-saturate the air—were donated to the hospital by their developers, the Medical Equipment Division of the Melchoir, Armstrong, Dessau Co. of Delaware.

High humidity often is the only medical answer to excessive or thickened secretions in a patient's breathing apparatus.

With the new-controlled temperature high humidity, medical authorities hope for successful treatment of those who suffer from extreme asthma, bronchitis, lung abscess, whooping cough and other breathing disorders.

It also may help patients exhale secretions due to paralysis of the diaphram or due to inhaling poisonous gases or dust.

## NEW TECHNIQUE USED BY WOMAN PICKPOCKET

CHICAGO, Jan. 29—(AP) Police hunted today for a woman pickpocket who used a new technique in filching a bill fold containing $52 from Herbert Wadington.

Wadington, a retired Railway Express company employe, told police about the incident. He was shoveling snow in front of his home yesterday when a car containing a man, two women and a baby pulled up. One of the women got out to ask street directions.

The woman suggested Wadington wasn't looking well. He said he felt fine. She insisted he must have heart trouble and said, "let me see." She opened Wadington's coat and sweater, despite his protests. Then she returned to the car and the driver drove away. A few minutes later Wadington discovered his billfold was missing.

# PAPERS STOLEN FROM AEC AIDE

LAS VEGAS, Nev., Jan. 29 — (AP) The Atomic Energy commission disclosed today that a search is underway for official papers stolen from the suitcase of an AEC radiation technician.

The papers were travel orders and were not classified, said Earle Hightower, security chief at the AEC's Camp Mercury, where atomic tests are due to start next month. The camp is 60 miles northeast of here.

Hightower gave this account:

James A. Hoffman, 36, technician of the University of California radiation laboratory at Livermore, Calif., arrived by plane at Las Vegas last Wednesday to participate in the tests, scheduled to start next month.

Two other members of the AEC staff met him and they drove to the Silver Slipper cafe, where they dined. After dinner they discovered a window of their locked car broken and Hoffman's two suitcases missing.

The suitcases were found Thursday by two youngsters on a Las Vegas street. The clothing was intact. But an envelope containing papers was missing, along with an electric razor and combat boots.

Hightower said in the luggage were two envelopes, one containing Hoffman's travel orders and the other a dummy set of travel orders. The envelope containing the dummy set was in the suitcase, Hightower said, but the other envelope was missing.

A search is underway for the papers.
