NERVOUSNESS IN CHILDREN

Children quite often are nervous and irritable and quickly get over it, but where the child seems to have acquired the habit of being irritable, make up your mind it is not a bad disposition, for it is rare that this is true. The irritable child is invariably the child that is sick. Sometimes it is the stomach, sometimes it is constipation, and sometimes it is directly due to spinal subluxations causing irritating pressure on spinal nerves.

The virtue of chiropractic in connection with children is that it usually gets quick results, much quicker than is possible with an adult. The muscles and ligaments of the spine are more pliable. In all forms of nervousness it is helpful.

Let us remove the CAUSE of nervousness.

Telephone FOrest 6-8463 NOW for an appointment.

WINDS DELAY A-TEST, THIRD IN NEW SERIES

LAS VEGAS, Nev., Feb. 23 (AP)—The third shot of the new atomic series was ordered delayed until Friday morning, the earliest, after a weather briefing today.

Unfavorable winds forced Nuclear scientists to abandon any idea of detonating tomorrow the powerful 500-foot tower shot which has been pending since Feb. 15.

Present plans call for another weather conference tomorrow to decide whether to set off the big shot, a smaller alternate test or none at all Friday.

TURK PREMIER IN IRAQ TO SIGN DEFENSE PACT

BAGHDAD, Iraq, Feb. 23—(AP) Turkish Prime Minister Adnan Menderes arrived by plane today. His office in Ankara said he came here to sign the Turkish-Iraqi defense agreement, possibly by the week's end.

The defense alliance has cracked Arab unity on Middle East defense issues. Egypt spearheaded the opposition and threatened to withdraw from the Arab league security pact the same day the Turkish-Iraqi treaty is signed.

The Turkish prime minister and his party were met at the airport by Iraqi Premier Nuri Said and other high officials.

NEW SONOTONE
Outperforms
EVERY MAJOR HEARING AID
in at least one of the following:

POWER—This new 4-transistor instrument is so powerful that many can be helped who could not hear satisfactorily before.

GAIN—It has so much sensitivity that, sitting in the back of church or the movies, most people can hear easily and well.

OPERATING COST—Here's a real bargain in better hearing. It is so inexpensive in use, that thousands with mild losses will spend only a few cents a week to hear better.

Regardless of price or claims by any other major hearing aid company, you should investigate the only hearing aid that can give you so much power and still cost so little to operate.
