

# Make Yourself a Job

WITH ED BISHOP  
The Idea Hunter

One of the most widely recognized needs in every household has been recently met by a Los Angeles man. While experimenting in his garage, he perfected a solution which, when sprayed on the reverse side of a rug, prevents it from sliding or slipping on a polished surface. After demonstrating to his own satisfaction, and also to several friends that the preparation did what he claimed for it, he equipped himself with two strips of carpet, one treated and one plain, a collapsible length of highly polished wood, and offered his services to neighbors. His charge is 5 cents a square foot for processing rugs, and he has been kept busy since.

Some simple new idea, properly broadcast, may put 1000 men back to work. If you know any idea, actually working, help spread the news by sending full details to Ed Bishop, care of this newspaper.
