

# The Idea Hunter

WITH ED BISHOP

With a potential customer in every fisherman, hunter, camper and other person who enjoys an outing on a lake or river, an inventor has created a thriving business in making and selling a fine type of collapsible boat. It does not have to be assembled, it just folds up and unfolds. It is strong enough to carry an outboard motor yet light enough to be carried any place with ease. He enlisted the aid of a large lumber company in perfecting his invention and distributing it, and is reaping a golden harvest from his idea, intelligently promoted.

If you know of some novel idea, actually being worked, help spread the news by sending full details to Ed Bishop, care of this newspaper. Further information on any idea published here will be given to anyone enclosing a self-addressed stamped envelope.
