Some wag among my friends suggested this is a lazy man's idea, but aren't most new gadget ideas something to increase our comfort and happiness? It is a special socket that screws into the reading table lamp between the regular socket and the globe. From this special socket hangs a tasseled chain and in the tassel is a cigarette or cigar lighter. Pull the tassel and it turns the light on or off; press a button on the tassel and it's a lighter, convenient yet out of the way.

If you know of some novel idea, actually being worked, help spread the news by sending full details to Ed Bishop, care of this newspaper. Further information on any idea published here will be given to anyone enclosing a self-addressed, stamped envelope.
