### 0 0 Short Wave Notes

music, spirituals.

The entire world is right in the short-wave listener's own back yard. At least it has been recently, for conditions have been such that stations in Europe, Asia, Africa, North America, South America, and Australia have been heard consistently and with good volume by those who have listened for

Of course, reception from Europe is not considered unusual any longer. It is an exceptionally bad night when at least half a dozen European stations cannot be heard. England, Germany, France, Holland, Italy, Spain, Portugal, Switzerland and sometimes Poland and Czechoslovakia are on the shortwaver listener's bill of fare almost any night.

From Asia, probably the best heard and most consistently re-

By far the best African shortwaver is ZTJ at Johannesburg, South Africa. Utilizing a power of 20,000 watts, this station has been coming through with fine strength and clarity. Located at 9.61 megacycles, it is easily heard from the time it comes on the air at 10:45 p. m. until its sign off at 11:30 p. m.

Of course, there are a dozen or roors North American shortwave Chamber and St. J. St. Mark. 280, 31.1 m., 9.63 meg.; IRF, 30.5 m., 9.63 me

Of course, there are a dozen or more North American shortwave more North American shortwave — Chimes, VK2ME, 31.28 m., 9.59 meg. timers at shortwave listening have discovered that many times when reception conditions on the regular broadcasting band are so poor as to make distant reception of network programs impossible, perfect reception can be obtained by dropping to the shortwave bands.

# Labor League to Act in Fall Voting

WASHINGTON— (U.P.) —Labor's Non-Partisan League, disclosing that it is analyzing voting records of congressmen on a dozen major issues affecting workers and farmers, said today it soon will announce whom it will support in the fall elections.

The wages and hours vote in both houses is the major basis on which support of the League will be granted or denied. Officials said it was extremely unlikely that any house member who voted to recommit that measure to commitce would be given League support this fall.

"Our analysis of these votes is being prepared for distribution in every congressional and senatorial district", an official said.

"The record on these issues virtually will determine whom we a long time. will support. For this reason, in some districts we probably will be supporting democrats. In others, we will back republicans. Where Winter, Watford City, N. D., and neither old party candidate is ac- by one daughter, Mrs. Mary Hyre, ceptable, we may put up independ-

The strength of Labor's Non-Partisan League is not known. It was organized in 1936 with backing of both the committee for industrial organization and some American Federation of Labor leaders to reclect President Roose-

Ads! Recently, President William Green and the Federation executive council directed AFL unions A Marian Martin Green and the Federation executo withdraw from the League, but League officials asserted there has been no perceptible loss of strength as a result. They claim most of their state organizations are headed by AFL members despite
