In fact, British seadogs still turn red when they are reminded that an English warship (the cruiser Garnet) was once caught napping in New York harbor. On a grim sort of lark, just to prove be could do it, an American swimmer rowed out near the ship at midnight, swam over in a rubber suit, towing a dummy torpedo, and attached it to the ship. Several British seadogs were pun-ished; Washington was sorry, and since then no British ship has been surprised. 2 2 2

## 10 Per Cent Cut An easy way for you to make in Normal School distinct of the political modified and the political modi Salaries Seen

A salary cut of almost 10 per cent for teachers in state normal schools from July 1, 1939 to June 30, 1941, loomed today following announcement by Edgar Doudwin. I know a na, secretary of the state board of normal school regents, that salaries already have been cut 5 per cent for this month, May, and June because of budget cuts ordered by the state emergency

Doudna said the 5 per cent cut for the last three months of this fiscal year was made necessary by the blanket 10 per cent slash in all departmental budgets ordered away from Washington, little by the emergency board last Diana Hopkins had the run of week. He said originally wages were to be cut 9 per cent, but daddy was in Warm Springs with when E. J. Dempsey, Oshkosh, FDR, recovering from two attacks president of the board of regents, explained the cut to Heil, the governor directed him to make the cut 5 per cent. Meanwhile, A. W. Peterson,
comptroller of the University of Wisconsin, reported that to affectthe \$86,644 curtailment of expenditures ordered by the 10 per cent cut of the emergency board, only the most vital purchases were

being made by the school. "We are absorbing the 10 per cent cut by reducing inventories of consumable supplies," he said, "deferring purchases which we otherwise would have made until after July 1, when the new budget becomes effective."

The finance committee has recommended a biennial budget for the university of \$660,238 less than that of the biennium expiring in June.

#### Prophets, Religious Heads Teach Same Aims, Scheffler Says

All prophets of God and founders of great religions have taught essentially the same principles, said Carl Scheffler, art director of the Evanston, Ill., public schools, in an address before the Madison Baha'is community Sunday night at the home of Mrs. Joel Stebbins Those principles, he asserted, Often, when he is about to swing and fellowmen; that there can be

#### **Board Invites** New Members to Meeting

Prof. John Guy Fowlkes and William Suhr Hobbins, elected to the board of education at the April 4 election, have been invited by the board to sit in at the regular meeting tonight. They will take their seats officially at the first meeting in July.

Board members hoped today to settle the question of purchasing a playground site for the new Washington school, under construction in Barry park.

The board has been negotiating for several months for purchase of the land from the Illinois Central road but it also must deal with the Meuer Fuel co. which is asking for damages because it would be compelled to move its yards. No agreement was reached on a previous offer but the Meuer co. was to submit a new one to-

#### Army to Train Again at Douglas

Camp Douglas will again this year be utilized by the regular army for training purposes.

It is many years since the federal government has had United States troops at Camp Douglas. This year, however, as soon as the state infantry training encampment is concluded about the middle of July, a brigade of cavalry from Ft. Sheridan will move in at Camp Douglas and be encamped there for several weeks. The encampment of the cavalry

at Camp Douglas will be simullancous with the field work of a brigade artillery at Camp McCoy. The artillery brigade at Camp McCoy will be the same as was encamped there last summer. It is an artillery brigade still using horses and it will march to and
