

Story Of Desert Baby To Be Described By Old Ranger

Duke Of Paducah Will Discuss The 1939 Girl, Her Wardrobe And Conversation

The Desert Baby, whose small grave in Death Valley became the mecca of prospectors, will be the subject of the Old Ranger's true story during the Death Valley Days broadcast Friday from 8:30 to 9 p.m. over WEAF. Infant daughter of Mr. and Mrs. Farmer, a young couple who operated a roadside camp between the boom towns of Goldfield and Rhyolite, she became the idol of miners and prospectors. Charles M. Schwab, one of her favorites, presented her with a \$20 gold piece on one of his visits.

Viennese melodies in three-quarter time and popular waltzes of the current season will be sung by Frank Munro and played by Abe Lyman and his orchestra during the Waltz Time program Friday from 8 to 8:30 p.m. over WEAF. Choral arrangements of songs in waltz tempo, sung by the Waltz Time Chorus, also will be featured.

Old-time fire-eating, dragon-slaying heroes were a bunch of sissies compared to Whitey Ford, the Duke of Paducah on the Plantation Party program. On Friday at 8:30 p.m. over WAZ Whitey, in a mood of derring-do, will sound off on the subject of "girls." During his brief but highly perilous talk, Whitey will discuss the modern gal, her wardrobe, her conversation and her foibles.

Musical portions of the program include "Down South" and "Louisiana Hayride," sung by the Westerners; "Till the Sands of the Desert Grow Cold," by Michael Stewart, basso; "Wildcat," bass fiddle solo by Milt Marbie; "Lonesome, That's All," by Louise Massey; "Mammy's Little Coal Black Rose," by Tom, Dick and Harry; "The Sheik," banjo solo by Allen Massey, and "Silver on the Sage," sung by Curt Massey, baritone.

Four top-notch radio script writers have been engaged to contribute regularly to a weekly dramatic program series, the new 1001 Wives show, which stars Betty Winkler and will be heard each Friday over WJZ from 9:00 to 9:30 p.m., beginning May 1.

The writers, who will take turns in preparing the continuity for the half-hour program, are Fayette Krum, former Chicago newspaper woman and author of many outstanding radio programs including Girl Alone; Al Barker, whose Don Winslow of the Navy, Lights Out and Thank You Studios are well known to NBC listeners; William Hodapp, author of the Jane Arden and Empires of the Moon programs, and Sandra Michael, creator of

BEST BETS FRIDAY

P. M.
6:30 — The ABC of NBC on Tour, WJZ.
7:00 — First Nighter Drama, WABC.
7:00 — Johnny Presents, WLW.
7:30 — Burns and Allen Comedy, WABC.
8:00 — Abe Lyman, WEAF.
8:00 — Orson Welles Playhouse, WABC.
8:30 — Death Valley Days, WEAF.
9:30 — Bob Ripley Program, WABC.

NBC's Affairs of Anthony.

Each broadcast will tell a complete story and each will be a dramatic character study of a particular type of wife. The listener may expect to meet the nagger, the woman who married beneath her and never lets her husband forget it, the 1939 model Mrs. Malaprop, and other assorted helpmates.

Matty Malneck's swing octet, which skyrocketed to fame in the motion picture, "St. Louis Blues," will inaugurate a series of weekly 15-minute programs via CBS starting Thursday, June 1, 6:15 p.m., plugging a popular brand of cigarettes.

Kathryn Holm, "Gateway to Hollywood" contestant in the first (dramatic) series of the pro-

gram, has won the lead in "My Fifth Avenue Girl," a picture soon to go into production. She was in college in St. Paul, Minn., when she auditioned. Current quest of this talent show is for singers, with Music Director Wilbur Hatch writing special music to display contestants' talents to best advantage.

Major Bowes, impresario of the CBS "Original Amateur Hour," will receive an honorary degree of Doctor of Laws from Villanova College, Thursday, June 8.

Barbara Stanwyck has been signed as guest star for Sunday's coffee hour, May 28, with Tyrone Power's bride, Annabella, scheduled for an appearance on the same program, June 4.

Claire Trevor, feminine lead on Edward G. Robinson's "Big Town" airings (CBS, Tuesday, 7 p.m.), is being paged to plug the love interest in "Frontier Marshal," a forthcoming production.

Starting July 2nd, for a period of thirteen weeks, a summer show will continue the pattern set by the present series starring Charles Boyer, concentrating chiefly on light, romantic comedy — in a half-hour program originating in the studios of the National Broadcasting Company.

Personable Jim Ameche, brother of the famous Don, and lovely Gale Page, whose flicker exploits have added to her radio fame, will be the featured players throughout the absence on vacation of Mr. Boyer. Born in Kenosha, Wisconsin 24 years ago, Jim Ameche was educated in the Badger State, winning a high school state championship in oratory shortly before an audition at the NBC studios in Chicago started him off on his career as a radio star. His tastes are versatile enough to include automobile shows, movies and dogs. He is likewise fond of football, swimming and spaghetti, and many of his less crowded moments are devoted to singing lessons.

Since 1933, young Ameche has climbed straight up the ladder of fame in such radio vehicles as the "Grand Hotel," "Jack Armstrong, All American Boy," and "Attorney at Law" series. Behind him is a solid buildup of radio successes dating back to the year 1933. Last summer he brilliantly shouldered the lead on the Playhouse program.

Simon is the engineer engaged by city council in 1937 to draw up plans and furnish estimates for the construction of a plant and distribution system. That issue was defeated at a special election June 22, 1939. The engineer said if the revived proposal materialized he would take those plans, revise them, and bring them to date at no cost to the municipality.

declaring that many towns near DELPHOS, May 19 — Advantages of a municipally-owned light plant were outlined Thursday night when a group of men met in city hall and discussed plans for establishing a compact organization which would take the lead in the promotion of such a project. A committee is later to be named by Arthur Walthorst, who was acting chairman, and plans made for another meeting of a similar nature. This procedure was suggested by Edward Busch.

On a vote of the audience, Walthorst was elected temporary chairman and Paul Eicher temporary secretary.

Busch spoke of the present status of the light situation in Delphos and of the plans now being proposed to pay for the light bills by the city administration. He advocated the city having its own plant at Waterworks park in line with the municipal waterworks and urged citizens to get back of such a movement.

The chairman also spoke in favor of a municipal light plant.

SPECIAL X-RAY PERMITS MORE PRECISE PICTURES

LONDON, May 19 (UPI)—A new type of X-ray apparatus called the Tomograph, is being used to treat old war wounds at Queen Mary's hospital.

The machine is unique in that its rays will focus on a section of the body at any depth from the surface and photograph it leaving out anything above and below. It not only reveals the presence of a bullet or piece of shrapnel, but the condition of the surrounding tissues. The knowledge of whether a foreign object lies clean or in a hidden status is extremely important in operating technique.

NYA WORK RECORDED MINSTER, May 19 — Activities and accomplishments of NYA workers who have been on the job at Lake Loramie near here for months will be filmed as a part of the National Youth Administration program in Ohio, it was learned here. Scenery and project work are to be filmed. The movies will be made in technicolor.

COURT AWARDS DOCTOR VERDICT

Judge Holds No Cause Of Action Shown In \$15,000 Suit

(CLEVELAND NEWS BUREAU) WAPAKONETA, May 19.—The \$15,000 damage suit trial of Julius Hebusius against T. H. Will, Minster physician, charging malpractice, was brought to an abrupt close Thursday afternoon when Judge W. T. Copeland instructed the five-man and seven-woman jury to return a directed verdict of no cause for action in favor of the defendant.

Hebusius claimed the amount due him for an incorrect diagnosis of injuries suffered a year and a half ago in an automobile accident. He testified that he suffered a fractured vertebrae of the neck and a broken arm but that he was not treated for these injuries until more than three months later when he sought advice from another physician.

Two Dayton physicians Drs. Snow and Judy testified in the form of depositions as to the fractures.

The defendant, testifying in his own behalf, told the court that he had made a thorough examination of the injured man and had X-ray pictures taken but that these did not show the fractures.

The motion was made by defense attorneys on grounds that the plaintiff had not shown that the defendant had failed to do all that would be expected of a physician under the circumstances. The Lima law firm of Wheeler-Bentley-Neville and Cory represented the defendant while O. J. Myers, Dayton, was the attorney for the plaintiff.

Jurors hearing the case were Mrs. Dorothy Frame, Wapakoneta; Harley Bowman, Route 1, Wapakoneta; Fred Ziegfelder, Route 2, St. Marys; Bert Copeland, Route 1, Wapakoneta; Mrs. Clark Kidder, Wapakoneta; Mrs.

Pearl Purpus, New Bremen; Ned Hoegner, Wapakoneta; Herman Lietz, New Bremen; Richard Fickle, St. Marys; Mrs. Edith Baker, Wapakoneta; Mrs. Alma Fissell, St. Marys; and Mrs. Ethel Bobo, Wapakoneta.

PROJECT PLANS MAPED KENTON, May 19 — Data now being prepared in the office of Hardin-co Engineer Russell Harvey on the Welch road in Dudley-tp, to be submitted to WPA officials for approval. The street of road which will be improved is a little over a mile in length. The improvement will consist of grading, draining and stoning the road. The project, sponsored by the trustees of Dudley-tp, Hardin-co, will be completed and submitted to the WPA this week. Raymond Clark, deputy engineer, said.
