### Oil Pressure Gauge Indicates Danger

When your automobile oil pressure gauge registers low, you know that failure to add oil will impair car performance and possibly cause irreparable damage.

There's no device on your radio to tell you when its efficiency is lessened. Because radio sets develop slowly, many people don't realize their presence. For quality performance, your radio should be checked by an A.R.T. expert every six months.

### Schools Can't Fill Newspaper Jobs, Hyde Says

The schools of journalism aren't turning people out fast enough to replace those who are dying in the field, Grant M. Hyde, director of the University of Wisconsin school of journalism, told students at a vocational guidance discussion in the Memorial Union Tuesday night.

"Our experiences in placement proves the field is not overcrowded," Hyde continued.

In another discussion of the series tonight, Philip Falk, city superintendent of schools, will talk on education at 7:30 in the Memorial Union, where all the other meetings as well are to be held.

Prof. Charles Bunn of the university law school and Associate Justice John C. Wickham of the Wisconsin supreme court, will lead the law discussion Thursday at 4:30 p. m. Helen Clarke, assistant professor of sociology, will direct the meeting on social work Monday at 7:30 p. m. Final meeting of the series at 7:30 p. m. Dec. 13 will consider applied arts under the leadership of Ise H. Hamann, assistant professor of home economics.
