LEADERS TAKE RALLYING FUEL

Pace Is Slow With Trading Not Heavy Enough To Work Up Steam

NEW YORK, Dec. 15—(AP)—Leading stocks took on a little rallying fuel in today's market but not enough to work up much steam.

While gains of fractions to a point or so predominated near the fourth hour, numerous issues were unchanged to down a shade and one or two sizable losses were registered. The pace was slow from the start.

The fact commodities again followed an irregularly lower route tended to discourage extensive buying in the stock list, brokers said. In addition, light tax selling continued as a handicap and cloudiness of next quarter's business outlook served toi nspire wariness among some traders.

Climax Molybdenum dropped about six points at one time following Washington reports the government would extend its "moral embargo" to exports of molybdenum metal to nations bombing civilian populations. Restrictions have thus far been limited to airplanes and parts. Climax is the principal world producer of molybdenum.

Motors were aided by another jump in this week's automotive production to 117,805 units against 115,488 last week and 102,005 in the corresponding 1938 period. The latest total was thel argest for any week since July 1937.

Rails had the benefit of the Interstate Commerce Commission ruling which reserved a long-time policy-holding it was not unlawful for roads to gives hippers of train loan or multiple carload quantities a rate preference.

Holders of merchandising shares noted the Dun & Bradstreet survey which found that retail spending this week, while topping the same period last year by six to 10 per cent, was "spotty" in some districts. In drought-stricken sections of the southwest, it added, sales were sharply below last year. Wholesale activities also were said to have been restricted, with both reorders of seasonal goods and purchases for spring in small volume.
