The plane-comparable to models costing \$100,000-is designed to sell for \$20,000 on a mass production basis, Tucker said. The trim little ship is a single scater with a 700-mile cruising range. In addition, the ship's fusclage is made of plywood treated with liquid plastic to make it fire and moisture proof. Company officials believe the plane, nearly completed now, will surpass the 470mile an hour speed purportedly attained by a German pursuit model.

The armored car, Tucker said, is designed for a top speed of 114 miles per hour and is said to be capable of 75 miles per hour cross BELIEVE IT OR NOT . . . . . . . . . . BY RIPLEY
