Q. What outdoor play equipment is advisable for a small yard? A. A few smooth boards of different widths, lengths, and thicknesses, not too heavy for a child to carry. Some large and medium-

sized packing boxes, so the children can climb into them or use them for playing games; a piece of canvas for a roof; a small sturdy saw-horse, which may be used as a base for a see-saw, and a sand-box. If space permits, a swing and climbing bars may be added. If older children play in the yard, rings attached to sturdy bars are desirable.

Q. Should cats be bathed? A. Generally cats keep themselves clean by licking and it is seldom necessary to bathe them. Bathing instructions and care of cats are contained in "The Dog and Cat Book," which may be purchased for 10 cents from the Wisconsin State Journal's Service Bureau, 1013 15th st., Washington, D. C.

Now make this test. Along with your club hold a handkerchief with a weight tied to one end. If you are swinging properly the weight and the club move as one. If they don't it means you are pushing or pulling on the club shaft, attempting to use leverage instead of the centrif-
