union leaders and some union

publications have been say-

fault because, in reporting and discussing facts, I have

not paused at regular inter-

More than a year ago, while covering the "Ham 'N' Eggs" election in California, I positively confirmed, from the highest authority

on this subject in the state, my conviction

that the California CIO was controlled by the

Communists. A few days ago Robert Jackson,

remains that the John L. Lewis faction is prin-

cipally composed of elements in which the Mus-covite influence predominates, including the longshoremen, the transport workers and the

Newspaper guild. This fact was freely admitted, in fact savagely alleged, against Lewis in the last days of the presidential campaign

by leaders and publications of the union move-

ment sympathetic with the Rooseyelt candi-

dacy. And the president's own suggestion that the Communists were backing Wendell Willkie was based on the known fact that

these evil creatures few.

As to the problems of racketeering and criminality in the AFL, this body admitted the truth, grudgingly, in open session in New

Orleans and then adopted a miserable resolution which amounts to nothing more than a

confession that the leaders lack the manhood, the courage and the citizenship to kick out of powerful official positions vermin who have

lived on the earnings of prostitutes. That is the truth, as anyone who can read simple English may verify from the record. It is not

a matter of interpretation but of fact, nor are

have been sustained, I still might be accused of anti-labor or anti-union bias. The question

is why I presented and hammered away at the

facts. Those who accuse me of bias think that theirs is the only possible inswer—that

I want to destroy the unions and expose labor

again to the cruel rapacity of soulless cor-porations and heartless individual employers.

sanctimonious answer that my motive is to help labor clean house and thus to strengthen

the unions. There is, however, another answer

-my answer. That is that I am a newspaper reporter or journalist and that the truth was

news. The truth created arguments, and I

answered the arguments. And if I have failed to extol certain unions which profess to be

wholly free of Stalinism and reasonably honest,

the reason is that they are no better than they should be. They should be loyal to the U. S. A.

Those are standard, minimum require-

in this country to praise them for refraining

from treason, persecution and theft. And when

cations attempt to make such defense to plain disclosures concerning unions.

Until about two years ago I was heartily but thoughtlessly and unintelligently in favor

of all unions just because they were unions.
Since then I have discovered that the American
concept of unionism violates some rights of

citizenship and property and permits traitorous or ignorant and crooked leaders to menace

the safety of the country.
