lege of Musical Knowledge in a radio studio, Kay Kyser and his band fill an engagement to entertain at a big week-end birthday party in an old mansion in a de-Serted location. Seldom did gaiety have a more eerie setting than the fantastic edifice built by a inow dead archaeologist and occupied by his spiritualistically inclined sister and his pretty young daughter.

Kyser and his pals are affected by the gloomy atmosphere and by the grim personalities of Saliano a fake medium, and of Judge Mainwaring, the family lawyer. They are even more affected when they learn that several mysterious attempts have been made on the life of the daughter. One of these attempts nearly kills Ginny Simms.

How the three Bad Humor Men endeavor again and again to get rid of the girl, how Kyser stumbles across the secrets of Saliano's mediumistic tricks, and how the band leader manages to save the whole party from annihilation after a series of fantastic adventures with "black magic," lead to a happy conclusion for the romance, and a musical climax with Kay Kyser and his band back before the radio microphone.
