Even if the American League doesn't land either Harmon or Kimbrough, they are likely to jack the price on these two stars up to a near record figure. The top pro price since Red Grange's debut was Whizzer White's \$15,-000 at Pittsburgh three years ago. The National League magnates insist that no player will ever get that salary again but Harmon, who has both the name and the ability, is likely to top that figure.

The National League can't afford to let either Harmon or Kimcuit. If Harmon casts his lot with the Yankees, his New York debut might crack the pro attendance brough get away to the rival cirmight crack the pro attendance record of 60-odd thousand set by Grange at the Polo Grounds in his first New York appearance after leaving Illinois to turn pro 15

years ago. The Chicago Bears drew Harmon in the National League's draft and George Halas, ownercoach of the club, is perhaps the most progressive magnate in the league. Although he is secretive about his plans for Harmon, and insists that he won't make any attempt to contact the Michigan star until he finishes school you can bet your bottom dollar that he has sent word to him not to accept any offer until he's

heard the Bears' proposition. The Chicago Cardinals drew Kimbrough in the draft, and they are going to make a real effort

They will have to have a rival attraction for Harmon if the Bears land him. Cards will have to counteract the publicity the Bears will rate because of their title.

The National League looks on the American League as a band of outlaws, and refuses to have any truck with the the young loop. Any player who jumps to the American League is barred for life. Ken Strong and a couple of other Giants broke their contracts with the Polo Grounds' outfit a few years ago and took a flyer with the Yanks. It was an unprofitable venture for all concerned, Strong later sought forgiveness and was taken back into the National League by the Giants after
