Mayor F. H. La Guardia, national director of civilian defense for the United states, and Herbert Morrison (with glasses), British minister for home security, held 15-minute defense conference over a Columbia Broadcasting System short-wave hookup while America eaves-dropped over the regular broadcast band.

Said La Guardia from Washington, D. C.: "This talk about Hitler not wanting to

come over to America is a lot of bunk."

Replied Morrison from Lon-on: "Right you are. An don: American visitor asked us recently how long we could stand it and the answer was 'just one week longer than the Germans'."

Therefore, unless we are building only for outsiders who come to the central part of the city for conventions, parking is far more important than walking distance for the majority of Madison's residential and trade area population." Branthen claimed statistics

Arguing further that the park already is reached easily and will be even more accessible if a drive is built across Lake Monona, he pointed out that the site is closest to the central converging point of all highways leading to Madison and that seven of the eight main streets to the park are concreted and wide enough to accommodate
