Turnesa Won't Play in National Amateur

DETROIT —(U.P.)— Willie Turnesa today announced his withdrawal from the 1941 United States amateur golf championship to be held at Omaha, Aug. 25-30, because of business demands.

GRIN AND BEAR IT — by Lichty

"I know the government only asks for old aluminum pots, but with our social position, we can't afford to give them less than our old sterling dinner set."

Pullman Didn't Invent Sleeping Car

DENVER— (U.P.) — Colorado, which likes to call itself "Colorful Colorado," has lost one of its traditions that added to its color—the legend that George M. Pullman got the idea for his sleeping cars while prospecting in the state.

The oft-repeated story that the idea was inspired by bunks chained to the walls of miners' cabins has been making the rounds for years, even appearing in state history books.

But here are the facts, and the first revelation is surprising—Pullman didn't even invent the Pullman. America's first sleeping cars had been operated in Pennsylvania as early as 1836 and Pullman took his first ride in one in 1853 when he was 22.

He rode 60 miles from Buffalo to Westfield, N. Y., but the discomforts were numerous and the young man, so the authenticated story goes, wondered whether a car could not be built that would serve for both day and night travel and furnish some comforts.

◆ ◆ ◆

Five years elapsed before he began to work on the sleeping car and, while he never claimed the invention of the sleeping car, "he did produce more comfortable cars than any then in service."

His enterprise was abandoned temporarily when the Civil War broke out and the government needed all railroad cars for transporting troops.

It was not until then that Pullman came to Colorado along with many others attracted by the stories of fabulous fortunes to be made in gold and silver.

Although Pullman made money by selling supplies to the miners in addition to working claims and buying ore, he did not make a fortune, as the Colorado legend goes. He returned East after a few years in Colorado with more than $20,000, which included some of his original capital.

On returning to Chicago, he took up his sleeping car venture and put virtually all his savings into the first all-Pullman-built car, the Pioneer.

Precautions based on weather bureau, department of commerce, frost warnings have affected large savings of fruits.

Celon has about 1,100,000 acres, or 14 per cent of the world coconut-palm acreage.

Bloomfield Man Wins Farm Award at State Fair

MINERAL POINT — A. C. Callin, Bloomfield farmer, will receive his certificate as the outstanding farmer of the Mineral Point community at the Wisconsin state fair Friday. Callin was named to that honor by members of the Future Farmers of America chapter. Joseph Lawinger, chapter president, will make the award.

Woman, Charged as Short Changer, Jailed at Monroe

MONROE — Bessie Gilbert, 32, New Orleans, La., was remanded to jail Monday when she was unable to furnish a $1,000 bond set by Justice F. Earl Lambeley when arraigned on a charge of obtaining money under false pretenses. Trial was set for Wednesday.

Miss Gilbert was accused of short changing several Monroe merchants. Officers said she gave $1 bills for small purchases, then claimed to clerks that the bill was $5.

FCC Head Hits Proposal to Tax Radio Stations

WASHINGTON — (U.P.) — Chairman James L. Fly of the federal communications commission told the senate finance committee Monday that it was "very dubious" whether a tax on radio station and network operations should be retained in the $3,200,000,000 tax bill.

Fly estimated the proposed levy would yield about $4,500,000. The schedule passed by the house would levy 5 per cent on income between $100,000 and $500,000, 10 per cent between $500,000 and $1,000,000, and 15 per cent above that figure.

Responding to a question from Sen. James J. Davis (R., Pa.), Fly said the levy on radio stations might eventually lead to a tax on newspaper advertising. He said newspapers were receiving a "heavy subsidy" from the government by being allowed to send papers through the mails at second class rates.

The radio industry, he said, already is shouldering "burdensome" duties in connection with the defense program and will be expected to do even more in the future.

The tax itself, Fly added, would touch only a small number of the 256 stations estimated by the treasury to be subject to it.

Federal tax collections in the 1941 fiscal year reached a peacetime record of $7,370,108,377.
