Standards You Can Tie To

In these days of stress and strain and uncertainty as to services and prices, it is comfortable to do business with the railroads. You can plan IN ADVANCE what you are going to spend, and you can be certain of having the service furnished at the expected price.

Such dependability, lightly regarded though it may be in times of peace and plenty, is a pearl beyond estimate when emergencies arise and the skies darken and the winds begin to blow. That is true because supply and demand have little effect on prices of railway transportation.

Uncle Sam himself has been among the first to find that out. He is coming to lean more and more heavily upon the strength of the railroads. Despite that, there has been no increase in all-rail rates on any commodity even remotely related to the national defense program.

On the contrary, there have been notable reductions. In taking over the movement of commodities ordinarily handled by water, the ratiroads have in many cases reduced rates below the normal all-rell basis Crude petroleum is one timely case in point.

Nothing short of an unbearable increase in expenses is likely to cause the railroads to seek any general increase in their rates.

We of the Illinois Central pledge to Uncle Sam, as we pledge to each of his sons (and your sons and our sons) in the training camps: "WE'LL NEVER LET YOU DOWN!"

13,398 MILES ON 5-QUART FILL OF Certified DEATH VALLEY DESTRUCTION TEST

Revolutionary New Oil tested against 5 other big brands. 8 new cars Destroyed to prove Economy and Protection.

The oil that reeled off an amazing 13,398 miles on one regular fill, in blazing Death Valley, was proved to be an oil of the Nth degree - an oil of new high character... Hence its name:

CONOCO N# MOTOR OIL

This dramatic test, supervised impar-tially and Officially Certified, was simple, yet harsh. 6 identical new care were taken to Death Valley-where the heat hits record highs. 5 of these cars were each assigned a different widely-known, highly advertised motor oil. The sixth car used new Conoco Nth motor oil.

Each car was broken-in on a brand assigned by lot. Then, one 5-quart fill of this same oil went into the crankcase—kept under lock. The cars were driven 57 miles an hour until oil failure cracked up each engine-utterly wrocked it! All of this under impartial official scrutiny, as was every step in the test, right on through the dramatic finish.

Here is what happened

New Conoco Nth oil went 13,398.8 miles. Not another oil came within 5.683 miles of this. One outstanding oil failed 8,268.6 miles sooner than new Conoco Nth motor oil. So it outdistanced the five competing oils by 74% to 161%.

Why this Astounding result was possible

New Conoco Nth motor oil contains a Conoco-originated synthetic (U.S. Patent 2,218,132) called Thialkene inhibitor. An inhibitor in motor oil acts pretty much as an inhibition acts on you. Inhibitions hold you back; police many actions. And so Conoco's Thialkene inhibitor polices Conoco Nth oil ... arrests pollution that otherwise comes from normal operation. And that's your aid against a dirty engine with inferior lubrication.

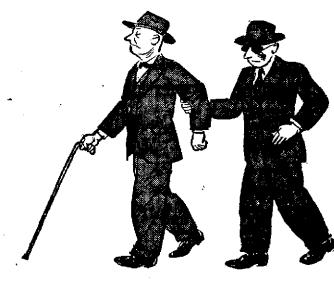

Are you an OIL-PLATING "fan"?

If you are, more power to you! Don't for a minute feel let down, for Conoco \mathbf{N}^{th} also contains the famous synthetic that oil-plates engines. Oil-plating comes from the magnet-like attraction that keeps it bonded to inner engine parts, so that it can't all quickly drain down to the crankcase-not while you're using Conoco Nth oil. This same famed OIL-PLATING is still yours to guard against wear.

Because of OIL-PLATING and Thialkene inhibitor, one 5-quart fill of new Conoco Nth oil went an astounding 13,398.8 miles. Of course, you'll never Death-Test your Conoco Nth oil in sinister Death Valley, nor repeat any other proving-ground tortures. You'll still drain and refill at the intervals recommended by qualified authorities. But how you'll expect to stretch the distance before you ever add a quart, judging by this big fact:

5 heavily advertised oils in the Certified Death Valley Test were outmileaged 74% to 161% by Conoco Nth oil. Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Co.—Pioneers in Bettering America's oil with Synthetics

CONOCO N MOTOR OIL

Blind-Lead-Blind

"Fushrer-Fushrer!" "Ducs-Duce!" Excited masses crowded into public squares, hypnotized by sound and color, misled by iles and propaganda endlessly repeated.

Not for us, in America. We believe that NO fuehrer-leaderhowever wise, can be as wise as all of us together, calmly considering the road before us, seeing all the facts, deciding which way we shall go.

And so we let NO ONE MAN put himself beyond the critical eyes and ears of the rest of the public. We'd not be FREE if we were kept in darkness.

The British public cheered Chamberlain to the echo when he returned from Munich. But it kept its right to know how his appeasement plans came off. And kept its right to reject him when it decided HIS judgment had faltered.

The American public, patient, tolerant, softhearted though it is, clings to its right to KNOW THE FACTS. This public says to its congress-

men, its merchants, its teachers, its publishers and to all others alike:

"Show me your wares. Let those who think they have better wares show them also. As long as I have the facts and the right to make my choice; I do not fear any of you.

"None of you is perfect; each has his blind spots. But with ALL of you free to see and to warn and to load; none amongst us need be blind."

Each day the news and advertise ing columns of FORTY MILLION newspapers in America furnish the

great Town Hall where all may speak. While that forum is kept open and in use we are protected against blind masses crying out in their blindness for "Leader-Leader-Fuehrer, Duce!"

A letter from those of you who share our views will hearten us. A letter from those of you who disagree will chasten us. And newspapers, if they are to serve you well, need both the heartening and the chastening of an alert readership. Address the publisher of this newspaper.

Over 320 of America's leading newspapers are carrying this message today to their 10 million subscribers. Newspaper Publishers Committee, 420 Lexington Avenue, New York:
