A working newspaperman is sorely afflicted by those millions who say-and most of them truthfully--"I used to be a newspaperman myself once." Which may be a good reason why the Hollywood press contingent likes Henry Fonda, apart from his many other favorable attributes. Mr. Fonda does not, and cannot say, "I used to be a newspaperman myself once," Mr. Fonda does not even say, "I wanted to be a newspaperman myself once."

And that is more to the point. The popular screen star studied journalism at the University of produced and directed. Minnesota, tried to obtain a reporter's job on every newspaper in his native Nebraska, and states North, South, East and West. He

Between his earnest efforts to obtain a police card from some amiable managing editor, Fonda worked as a trouble-shooter for the local telephone company, as an ice-peddler, garage mechanic and, in sharp contradistinction, as a window dresser!

Active in dramatics while at Minnesota, he began to play minor roles in Omaha Community Playhouse where, within short order, he was not only an actor of distinction but the little theatre's chief set designer, director and supervisor. Heading East, he landed a job with the Cape Playhouse group in Dennis. Mass., appeared in other little theatres and, finally, turned to Broadway. His first major role was in "The Swan"; his second. Edgar Bergen, Charlie Mc-Carthy and Lucille Ball are costarred with the popular radio team of Fibber McGee and Molly in this riotous film, which also features such air favorites from dolph as Mrs. Uppington and Bill

Thompson as Old Timer. The laugh-provoking story presents McGee as President of the Wistful Vista Chamber of Commerce. His efforts, however, are opposed by the shady Gilersleeve who sides with the tycoon of a rival town. When Edgar Bergen and his protege, Charlie McCarthy, make a forced landing in their planes and are befriended by the McGees, they interest themselves in McGee's struggle and finally are instrumental in pulting over the important deal for him.

Lucille Ball has the romantic lead opposite Bergen as his faithful secretary, while Dorothy Lovett, Lee Bonnell, Neil Hamilton and Charles Halton have prominent supporting roles. Allan Dwan directed and produced for RKO Radio.

nature of the aid and how quickly it arrives. The immediate burden rests on the broad shoulders of General MacArthur and his magnificent little army, that is, the problem of hanging on until help comes over the horizon of the vast Pacific. That buiden is great, for the Japs are all out in an effort to make a quick killing-and they are doing it without regard to the laws of humanity.
The deliberate slaughter of

civilians in the defenseless and open city of Manila by Japanese bombers gives fresh point to a threat made just before Christmas by Nazi Propaganda Minister Goebbels. He declared that Germany, Italy and Japan are "going all the way" in the war and, being Capital of Inca Empire forced to defend their lives, "they Was Located in Ecuador tions."

Now the Japs have interpreted is meaning in a bloody holocaust of innocents. They have staged a studied exhibition of frightfulness. The purpose of this was to shatter the morale of the civilian population and thus cause a collapse of Filipino resistance.

OUITO, capital of the republic of Ecuador, pictured on the map stamp above, has been one of the most important cities of South America for centinges. Before the Spanish conquest. Quito was the capital of the vast Inca empire. Under Spanish dominion. it became a cultural and art center of the New World.

The counter, from which Ecuador derives its name, crosses the republic near the capital, but the altitude of the city makes its climate temperate. Most of the cultivated area of the country lies in a high plateau between two ranges of the Andes.

Construction of the raffrond be tween Quito and Guayaquil, the principal scaport, was one of the world's greatest feats of engineering. At one point, trains ascend
