WHO WILL WIN THE WAR

• In a modern war it takes 18 men behind the lines to provide supplies, equipment, and food for each soldier at the front. This war can be won or lost by the "soldiers in overalls" as well as those in khaki.

We are proud of the part of Erie men at home, too, for they represent the typical American-the man who is working harder and faster than ever before, the man who does a full day's work every day-the man who will win the war by out-producing the Axis.
