GOP Chiefs See Victory for Hawks

Republican leaders in the Second district in which Madison is located are confident former Rep. Charles Hawks, Jr., Horicon, will be elected.

They say reports from all of the counties in the district are enecouraging. They even intimate Hawks will carry Dane county, the strongest Progressive county in the dis-Progressive leaders do not show

as much confidence. They say Rep. Harry Sauthoff (P-Madison) has been greatly handicapped by illness. Thomas Davlin, private secretary to Sauthoff, said Saturday that Sauthoff's health is now better and that he would actively campaign during the next two weeks.

Progressives believe that personal work by Sauthoff may accomplish his election. Thomas Brooks, Watertown, Democratic candidate, has not been showing a great deal of activity. It is not believed he will poll a large vote.

UNCLE SAM NEEDS YOUR TIN!

Follow these Official Instructions by the War Production Board!

Nearly ninety per cent of America's tin formerly came from Malaya. And tin is vital to the war effort - for airplane parts, machine gun mounts, gas masks, countless other military uses! That's why Uncle Sam needs your old tin cans. Read the simple instructions below and cooperate with your Salvage Committee. Defense Council, and Municipal Authorities to help make the salvage of tin cans a big success in Madison.

Important Facts to Help You

All paint, oil, varnish, floor polish, or cone-shaped cans are not wanted for salvage. Evaporated or condensed-milk cans are not worth saving. Put these with your trash.

Coffee cans and others with painted-on-can labels are wanted.

It is not necessary to wash off the small amount of glue which holds labels.

BE PATRIOTIC—Keep this leaflet in your kitchen for handy reference.

Why "Prepared Cans" Are Needed

- 1. Washing prevents deterioration of tin coating-assures sanitary condition - and prevents contamination of detinning fluid. 2. Removing top and bottom per-
- mits the free flow of detinning fluid over all surfaces of the 3. Flattened cans occupy less space in collection, shipment, and detinning operations-thereby de-

creasing plant capacity for de-

creasing handling costs and in-

START SAVING CANS NOW-Properly "prepared cans" are clean and fit solidly into a basket or other container. Place on curb collection day!
