Truth is not only stranger than fiction but often better motion picture. This is true of "No Greater Sin" at the Lyric, the story of a doctor who fights a city to conquer the vice conditions contributing to the spread of venereal disease infection which face hundreds of communities today. That this problem is currently

recognized by local and national authorities is evidenced by two vitally important national projects U. S. O. and the W. P. A. The U.S.O., the preventive measure, functions to provide service men with healthful entertainment and diversion. The W. P.
