CONGRESS PREPARING TO ADJOURN

WASHINGTON, Dec. 12—(UPI)—The weary 77th congress today appeared ready to vote sine die adjournment by the middle of next week, ending two momentous sessions marked by everything from war declarations to filibusters.

Senate leaders of both parties were hopeful that adjournment—the first since 1940—could be arranged for next Wednesday, even the President Roosevelt's last-minute appeal for legislation to increase compensation for federal employees might fall by the wayside.

The President asked immediate enactment of a bill to correct inequities in the federal service by providing uniform work-week and overtime pay policies and—apparently with an eye on legislators' desires to return home—suggested that he be delegated authority to handle the problem if there is not sufficient time to get a bill thru.

Senate Democratic Leader Alben W. Barkley told his colleagues that any attempt to enact the measure would be "futile" because the house could not convene before the session ends on Jan. 2 since activity there has come to a dead halt for lack of a quorum.

Some Democratic members were angered by the President's request, particularly his "demand" for authority.

All contested legislation in the house has been passed over until the new congress and Speaker Sam Rayburn, D. Tex., has urged the senate to refrain from sending over any controversial legislation.

BRICKER FROWNS ON ANNOUNCING AS CANDIDATE

Governor Hopes To Forestall Formation of "Presidential" Clubs At Present

By H. H. DAUGHERTY COLUMBUS, O., Dec. 12—(AP)—Gov. John W. Bricker looks with disfavor at this time on efforts by political friends to have him make formal announcement as a Republican presidential candidate.

Don C. Power, the governor's secretary and his closest political advisor, said today the governor at present is concerned only with giving Ohio "good government."

It generally is anticipated that no action will be taken by the governor or his political advisors with respect to his possible presidential candidacy until after the new legislature, which convenes Jan. 4, has adjourned.

Power, who successfully managed the governor's third term candidacy outlined Bricker's pres-

idential position after admirers asked permission to form "Bricker for President" clubs in Ohio and outside the state. Some such clubs already have been formed, Power said, "without any authority whatsoever from the governor or any one closely associated with him."

Power said he had emphatically advised against formation of such clubs at this time.

"Of course if any group decides on organizing such a club we have no way of stopping them," he added. "But we definitely are not encouraging their organization now."

Atty. Gen. Thomas J. Herbert expects to issue a formal opinion next week that the federal government is without authority to freeze salaries and wages of state and local government officials and employees, but will ask all public officials to co-operate with the federal authorities in efforts to forestall inflation.

Herbert announced his position today following refusal of Na-

ional Economic Stabilization Director James F. Byrnes to modify a regulation purporting to give his office authority to regulate salaries and wages of officials and employees of the state and its various political subdivisions.
