

Abundance Of Wheat Appears In Nation

Corn Surplus Is Wiped Out By Lend Lease

CHICAGO, Jan. 2 (AP)—Like a teeter-totter, the nation's ever-normal granary, which may some day soon help to feed a war-stricken world, is shifting from an overabundance of corn to an overabundance of wheat.

Grain trade statistics today showed the ever-normal granary, now ten years old, holds supplies of sufficient size at least to make a good start on the task of feeding Europe.

In the spring of 1911, when the United States began to supply food to Britain and others of the United Nations, stocks of corn in the granary were at a peak, totaling in excess of 500,000,000 bushels. Wheat stocks were about one-half that total.

Lend-lease demands, however, have called for greatly increased livestock consumption of corn, as well as industrial products made from corn such as starch, sugar, oil and alcohol, the granary's supply of that cereal has been reduced to less than 200,000,000 bushels, and a large portion was in position for immediate farm consumption.

Meanwhile, the granary supply of wheat has expanded. By the time farmers complete the seeding of 1942 wheat under government loans, the total in the granary may exceed 700,000,000 bushels. Already it is estimated above 600,000,000 bushels.

This amount of wheat is over and above normal domestic requirements. In fact, according to current estimates, the United States may have on hand as surplus more than 850,000,000 bushels of bread grain by the time the 1943 crop is ready for harvest next summer.

This will be more than 200,000,000 bushels in excess of the record carryover last summer.

Domestic wheat prices advanced about a cent a bushel the past week. Corn was about a cent higher but oats and rye were over only fractions.

BROOKVILLE LAD IS NAVAL HERO

WASHINGTON, Jan. 2 (AP)—Glen A. Fryman, of Brookville, O., has been awarded the Silver Star for extreme gallantry in the southwest Pacific.

Fryman was one of nine persons to whom President Roosevelt has awarded the Silver Star and whose names were announced today by the Navy department.

Fryman, machinist's mate second class, 20, son of Earl M. Fryman, Brookville, O., Rural Route No. 1, was serving on a naval vessel which was attacked by enemy bombers and a bomb fragment penetrated and set afire a four inch powder cartridge near him.

He loosened the cartridge from his holder and at great danger to himself threw it overboard, thereby the citation said, saving the lives of many of his shipmates.

LONG ARM OF THE LAW COLUMBUS, O.—(UP)—Stolen 24 years ago from Mrs. C. D. Lingafelter, a watch pledged in a pawnshop was found by police to have been robbery loot on Feb. 18, 1918.
