retail milk.

#### Complaint Filed on Penalizing Count

**Cheese Leader** 

Hits New Rules

SHEBOYGAN -(U.P)- George L. Mooney, secretary of the Wisconsin Cheesemakers' Assn. and former secretary of the American Cheese Institute, protested Friday that state producers of American cheese were being penalized under of 2 cents per quart in the price of the new dairy price regulations.

The complaint was filed with the United States department of agriculture and federal price authorities. Mooney claimed that the differential paid on cheese made outside the state for freight to Plymouth, but not delivered to the market there put Wisconsin 5:00 WBBM WIND producers at a disadvantage.

The protest arose from cheese price ceiling rules which set the top price for American cheese, except in case of low moisture content, in all points in Wisconsin at 231/4 cents compared with reilings in other states which provided for 231/4 cents a pound plus the carlot freight rate from "Plymouth to the point of delivery in any other state."

The association secretary pointed out that since the state produces half of the total domestic output of cheese this artificial freight charge discourages higher produc-tion of cheese—which the government has been urging—and penalizes state producers. Producers may be many miles distant from Plymouth but still have to ship to

Mooney also objected to the premiums paid for low moisture cheese pointing out that if higher prices are paid for milk for dry cheeses then little milk would be sold plants producing moist cheese. Mooney claimed Americans prefer a moist cheese and
