#### CONSUMPTION OF ELECTRICITY AT BLUFFTON IS UP

BLUFFTON, Feb. 16-Bluffton s using 10 to 15 per cent more deetric current from the municipal light plant here than they did one year ago, it was announced by plant officials this week.

During 1942 the plant generated more than 3,000,000 KW of electric energy. Receipts for the current showed an aggregate of \$54,-041, an increase of approximately \$3,000 over last year's total, i was indicated in a report made public by E. S. Hauenstein, clerk of the board of public affairs. Reason for the increased con-

umption of current here is found in the greatly expanded industrial operations due to the war. OHIO FLIER KILLED COLUMBUS, O., Feb. 16 - (INS
