ter method.

Ninth of a Series RELEASE OF THE BALL

There are various ways to release a bowling ball, but most

bowlers release it with the thumb toward the body and the palm of

the hand in such a position that if

it were moved in toward the body

the palm would lay flat against

the side of the leg. (See above il-

release is with the fingers directly behind the ball. I

advocate the former release,

as illustrated above, and urge

the bowler not to use the lat-

Many beginning bowlers will throw a natural hook when the

thumb out first and applying the
