Keep Your Appliances in Repair

They Cannot be Replaced Now!

You won't be getting new appliances for the duration—so take good care of the ones you now have.

With periodic check-ups and immediate attention, your appliances will last much longer.

If you have appliances that are not working properly, have a qualified repair man put them in condition to perform their job efficiently and economically.

See that your appliances, cords, wires and fuses are in good working condition. At the first sign of trouble call your repair man. He can fix them up for you. Immediate repair may save valuable parts which cannot be replaced later.

By taking these steps you will not have to do without the help of these valuable household servants.

ARE YOU HELPING THE MAN...

with the toughest job in town?

He doesn't get much applause—that hard-working neighbor of yours on the War Price and Rationing Board. Most of the time he's listening to kicks and squawks from every side.

He listens patiently to every story, then makes decisions that aren't easy to make. No one likes to say "no" to friends and neighbors.

He works long hours at his job—just about the most important war job in your community. He doesn't get paid for it. It's all voluntary—all "above and beyond the line of duty." Long after the office of

the War Price and Rationing Board is closed, he's still there—sorting forms, checking applications, studying ways in which to solve the problems of the people of his community. It's a hard, grueling—and all too often—a thankless task.

But he has one consolation—the knowledge that he's helping to make democracy work. The "Committee of Neighbors," of which he is a member, exists today as a vivid example of the American system in action—a system that looks to the people themselves in working out of problems affecting their well-being and their destiny.
