Water buffaloes spend much of their time in herds, and there may be 50 of them in a single herd, or even more. Each year the herds split up for a time into small groups, in which there may be one

Wild water buffaloes still are to be found in India, but they are not nearly so common as the tame ones. Thousands of years ago the people of India found that they could gather these animals and keep them on their farms. Very likely they started out by capturing calves and "bringing them up,"

Water buffaloes today are raised on farms in almost every part of India, also in Ceylon, Java, Sumatra and other islands off the coast of southern and southeastern
