

Hogs Go To Market In Substantial Numbers

Prices Decline To This Year's Lowest Levels

CHICAGO, May 29 (AP)—Farmers began moving their hogs to market in substantial numbers this week in Chicago and other principal trading centers and prices here moved downward to the lowest level in five months.

The top price dropped to \$14.30 per hundredweight Thursday, and the average price fell to \$14.19, the lowest since last December 18. After four heavy days, receipts fell off somewhat Friday and the price moved up slightly to a \$14.40 top, compared with \$14.60 a week ago Friday.

Salable hog receipts in 12 leading markets for the first five days this week totaled 384,500, compared with 331,500 a week ago and 297,800 for the same period a year ago.

Receipts normally start to climb at this time, traders said, because the heavy "June runs" of hogs begin to arrive on the market.

The cattle market meanwhile was stimulated by the largest purchases of fat steers by eastern order buyers in years. Steer trade finished steady to 25 cents higher, heifers strong, cows and bulls strong to 25 cents up, and vealers firm.

Salable lamb receipts were reduced sharply but this failed to prevent declines of 15 to 25 cents which traders said was in sympathy with a proposed "roll back" of dressed lamb prices.

The woolled lamb top was \$16.25. Sheep were in active demand and mostly steady.

Farm Labor Recruitment Plan Mapped

COLUMBUS, O., May 29—A joint statement outlining farm labor recruitment plans has just been sent to all county agricultural agents and all field office managers of the United States Employment Service in Ohio by H. C. Ramsower, director of the agricultural extension service in the state, and Wade Hammond, USES director for Ohio.

The statement points out that a Congressional act has made the U. S. Department of Agriculture responsible for the recruitment, training, placement and supervision of all farm labor, and designated the State Agricultural Extension Service as the administrator of the act.

Full cooperation of the United States Employment Service will be given to the Extension Service in its work of recruiting and placing needed workers on Ohio farms.

"Although the Agricultural Extension Service has the responsibility for the entire farm labor program in Ohio, it greatly needs the assistance of the United States Employment Service, the joint statement reads.

"The USES will give all the assistance possible to the end the farmers will have adequate labor to produce, harvest and market a maximum of agricultural products this year.

"The USES retains full responsibility for recruitment and placement of labor for processing agricultural products. This includes canning factories and de-hydration plants. Employment Service managers and county agricultural agents will work together in allocating labor as between farmers and processors of farm products."

Stocks Close Best Week In Several Years

NEW YORK, May 29 (AP)—The stock market today finished a good week and one of the best months in the past several years with favored issues pushing up fractions to more than a point to peak levels since early 1940 on expanding volume.

The upswing of the week and month was attributed mainly to pressure of idle funds seeking employment, persistence of war optimism which especially aided stocks of companies that may benefit from the conclusion of the world conflict, and a mild revival of inflation psychology.

Prominent gainers today included U. S. Steel, Chrysler, U. S. Rubber, Goodrich, Montgomery Ward, Sears Roebuck, American Telephone, Allied Chemical, Johns-Manville and Du Pont.

Forward leapers in the curb were Cities Service, Brewster Aero, Electric Bond and Share and Humble Oil. The aggregate was 237.50 shares versus 164.285 last Saturday.

SLAUGHTERING RESTRICTIONS ARE AMENDED

An amendment to OPA Ration Order No. 16 wipes out certain restrictions on custom slaughtering of home-produced livestock for consumption on the farm.

These regulations now permit a farmer and his family to consume meat raised on any farm he owns or operates, and to transfer meat from one of his farms to another to provide food for members of the household, without giving up ration points.

However, if the farm owner lives any place other than on a farm, he must give up ration points for the meat he consumes off the farm, even though he does not pay for the meat in money.

This action, placing custom killed animals on the same basis as home butchered livestock, in no way affects regulations covering farm slaughterers, butchers and local slaughterers under Food Distribution Order No. 27, says E. O. Pollock, Great Lakes Administrator for the Food Distribution Administration.
