INFESTATION OF CORN BORERS IS BELIEVED LIGHT

(Lima News Bureau) OTTAWA, July 28—Corn borers have been found in oats fields in Putnam-co. it was learned today from County Agent L. C. Holtkamp.

This is the same borer that infests sweet corn and field corn. The infestation observed so far has been light and hasn't caused much damage, Holtkamp asserted. T. H. Parks, extension entomologist of Ohio State university, said that this was the first time the corn borer has been found working on oats in this section.

Reports also have reached the agent that the corn borer has
