### EXTENSION OF SERVICE ASKED OF CITY COUNCIL

ST. MARYS, Aug. 16 -- City councilmen were petitioned by property owners along the east of Lake St. Maivs to extend the city water lines from the Nickel Plate railway to the state fish hatchery, providing service for their cottages. In the petition the property owners cite they are without flowing water since the city drilled the well on the Barrington farm, south of St. Marys, supposedly hitting the same vein from which they formerly obtained their water supply. The petition was referred to the

light and water committee. A petition from the firemen, engineers and millwright at the municipal power plant, asking for a 15 per cont increase in wages, i also was referred to the light and water committee.
