New Glasur Man Wins Silver Wings

NEW GLASUR—Percival Hanson, son of Mr. and Mrs. Alvin Hanson, was recently awarded his silver wings and promoted to sergeant, and is now getting his combat training at Pyote Field, Tex., as a radioman and gunner aboard a Flying Fortress. Sgt. Hanson was graduated from the radio school at Scott Field in June as operator and gunner.

His brother, Pvt. Tenner Hanson, completed a year's service with the army on foreign soil in the Pacific war area on Aug. 15. He is a member of the military police in Australia.

Navy Accepts Three From Blanchardville

BLANCHARDVILLE—William Winzenreid, son of Mr. and Mrs. John Winzenreid, Monticello; Alven Blanchard, son of Mr. and Mrs. Alvin Blanchard, and Herbert Dobson, son of Mr. and Mrs. William Dobson, have enlisted in the navy and expect to leave Tuesday for induction. William is a senior in Blanchardville high school, and Alven and Herbert were graduated last spring.

Uncle Ray's Corner
By R. J. Scott

JUDGING by their name, we might suppose that gooseberries are fond of eating them.

The fact, however, is that no special fondness of geese for gooseberries has been reported. "Then," we may ask, "how does it happen that gooseberries were given such a name?"

The makers of dictionaries have found it hard to answer that question. The name is known to go back about 400 years, but no one is sure of the reason it came into use.

One suggestion is that gooseberry bushes grew around farms in England, and there had to be some name for the berries to set them apart from other kinds. It may be that the name of the goose, a common fowl, was chosen to build the name "goose-berry." In such the same way "crows-berries" and "cowberries" seem to have been named.

Perhaps more likely, the word "gooseberry" grew out of a foreign language. It may have come from "grossberry" and the true meaning may be "large berry."

Many words have been changed in spelling since olden days, and it is possible that "gross" was changed to "goose."

Gooseberries really do reach large size. When I say that, I am thinking of the big gooseberries raised in Great Britain and on the continent of Europe. Wild gooseberries in North America, and some times ones, are small, but the name came to us from abroad. England's gooseberries are noted for their flavor and weight. Sometimes they weigh as much as two ounces apiece, and compare in size with plums.

One kind of gooseberry has as much as 8 per cent of sugar in it. In general, however, these berries have a sharp taste. People seldom eat them until they are cooked.

Gooseberry jam is prepared by some housewives. Gooseberry pies and gooseberry tarts also are eaten. The sharp taste is overcome, in part, when sugar is added. Another use for gooseberries is in the making of vinegar.

Gooseberries come not only in different sizes but also in different colors. Many are green when ripe, but others take on a purple, red or amber color. Red gooseberries are the sweetest.

(For NATURE or GENERAL INTEREST section of your scrap-book.)
