### SIGN OF THE TIMES

Between scenes of "The Story of Dr. Wassell," C. B. De Millie set 10 extra letters in down all capital-letter abbreviations that occurred to them—like GI, OPA and IOU. The result: De Millie concludes that while the average man is supposed to have a vocabulary of 3,000 words, the average American carries in his head a 16-per cent additional vocabulary of alphabetical contractions!

Helene Thimig, who plays Hitler's half-sister, Angela Raubal, in "The Hitler Gang," is the widow of the great continental producer, Max Reinhardt.

Veronica Lake will play a cigaret girl at a nightclub in her first musical, "Bring on the Girls."

### Poor Johnny, He'd Be Rich--

NEW YORK—(U.P.)—There would be great days for Johnny Black, who has been dead more than seven years now and was out of the public mind long before that.

Johnny was a fast man with a dollar and he would have plenty of them to speed into circulation. Johnny wrote "Paper Doll."

As a composer-musician, Black was hep to the long-hair stuff but his own work was in the pop field and "Dardanella" was his first big hit. He touched both the high and low spots and the low spots came almost exclusively after that. He was broke more often than the camel's back. But he never made a dollar that he didn't enjoy.

These days the old hands in the entertainment world recall the lavish parties that Johnny used to throw when he was in the chips. Anyone was welcome and he was his own entertainer, playing the piano or fiddling. His moods were unpredictable.

his clothing, manuscripts, musical instruments, etc., herded them into a taxi, and drove to the pier, where the uncorralled duffel was dumped out and the girls dismissed. He had no reservation, but the story goes that he turned on the personality and shared the captain's quarters for the voyage.

As for "Paper Doll," it was written a quarter of a century ago and kicked around for three years before it was published. Johnny liked it but it didn't catch on at first and then it somehow got shoved into the background by newer pieces and everyone forgot about it. In June, 1942, the Mills brothers dug it out of someone's memory and made a recording. The rest is musical and financial history.

#### Europe Suffered Two Invasions from Oriental Rats

The subject of rats is hardly pleasant, but sometimes we need to think of things which are not pleasant. If people never had thought about rats, these animals would be even more of a pest than they are now.

#### members of the race before.

Rats existed in Europe in ancient times, but the worst kind have been there less than 1,000 years.

The first great "invasion" of the pests into Europe seems to have taken place during the Crusades. We are told that they boarded the boats of Crusaders in Palestine, and were carried to Europe without charge.

#### North America now has both brown and black rats. Each year they destroy grain and other food to a value of hundreds of millions of dollars.
