ing Politics With Work

WASHINGTON, March 27 a fourth term for President Roosevelt blew up a political storm to-

gating committee. Senator Bushfield (R-SD) answered Truman's plea for a continuation of the President's "wise and experienced" leadership with an assertion that the committee

which has been critical of some phases of the war effort apparently was "being used now to forward the candidacy of one man

for president." "I think the statement is completely partisan and out of place, Bushfield declared.

In a press statement issued thru the office of the secretary of the senate in his absence, Truman said yesterday that with the crucial European invasion at hand our commander-in-chief will require prayerful understanding and vigorous support."

"I think the country realizes," the Missourian said, "that we have wise and experienced leadership. And I am further convinced that this leadership will be continued until the job at hand is

completed. No one can divide us in this supreme effort." Republican members of the committee said the statement took them by surprise, inasmuch as the group only recently reaffirmed its policy of keeping politics out of its work.

Senator Ball (R-Minn.) commented that Truman's statement obviously was made for its political effect" and he and Senators Brewster (R-Me.) and Burton (R-Ohio) joined in declaring the Missourian was not expressing the committee's sentiments. They challenged Truman's assertion that home front faults found by the committee "are insignificant in comparison with the great achievements that have resulted."

Truman has been mentioned for the Democratic vice presidential nomination.
