# Who gets hurt by Black Market gas

What harm is there in "getting a little extra" gas now and then ... with an undeserved or stolen or counterfeit coupon ... or by paying a little more and giving no coupon?

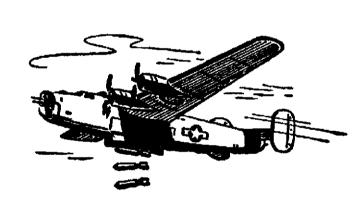

The real hurt is suffered by the fighting man ... who offers the greatest sacrifices. There's not a single mile we drive that does not use gasoline from the common pool we share with him. Gasoline powers his attack-

HE REQUIRES HIS WEIGHT in oil products every 3 days, to put and keep him at the front.

AN ARMORED DIVISION moves only 21 feet per gallonburns 25,000 gallons in 100 miles.

IN ONE HOUR a 4-engine bomber burns enough gasoline to last the average car owner for 6 months.

OVER HALF THE SUPPLIES shipped to the fronts are gasoline and other products of oil.

GASOLINE POWERS ambulances, medical units and hospital planes—helps save the lives of 97 out of 100 wounded today. against only 92 in World War I.

PETROLEUM FUELS THE FLEET -submarines, aircraft carriers, destroyers and all other navy craft are powered with oil or gasoline. One fucling of a battleship would heat an average house for 350 years!

Yes, it's the fighting man who gets hurt by "Black Market Gas." Leaks in the carefully rationed supply can hold back our gigantic war machine.

America is refining more crude oil than ever before. Yet for every gallon of gas that goes to war in 1944—there's only 1/2 gallon left for passenger cars.

Your part is this:

- 1. Don't take gasoline without giving your own coupons. If anyone offers you gasoline without requiring coupons you can know you are receiving Black Market gas.
- 2. Don't use loose coupons.
- 3. Endorse all your coupons now.
- 4. Do everything you can to keep racketeers out of war vital assoline.
