SPORTS REVIEWS

By Paul Fogarty

slender trees, branches of such a tree can be cut away, and other branches can be left in place, perhaps being cut

If a slender tree is cut, and the Much of the history of the ladbranches are trimmed in the right way, a ladder of a sort is madeder has been lost. We are likely with "rungs" on either side of the to use ladders hundreds of times trunk. Present-day beekeepers often use ladders of that type, but during our lives, but no one knows when they were used for the first the modern ones must be better than those of the Stone Age.

Indians in southwestern parts of knew how to write. That seems the United States lived in the "Late Stone Age." They had lad-ders, as we know from records left to explain why no record was by Spanish explorers. Coronado and his men watched those Indians climb ladders, and were amazed by their skill.

> The Pueblo Indians, we are told could climb the ladders as if they were stairways. They kept a perfect balance without holding the rungs with their hands. Coronado wrote:

"One of these Indian women can carry a jug of water up a ladder on her head, without touching it with either hand."

As I write these words, I have with rungs between.

Wood is the common material made to "grow" in length. With
