Van Dolen, distinguished writer of the American Medical-asan, will and Pulitizer Prize winner, has be guest speaker on the program. RISE NOTED IN

CLEVELAND, June 27 -- (UP) -O W L Coffin, vice chairman Lieuelin W McCleever, Sara of the Regional War Labor Board; believes that a two-months report Then there's Matty Malneck and of the enforcement division of his orchestra and three flits and the WLB reflected "a rising tide of subterfuge and evasion ' of the wage stabilization act

Coffin said the report showed John Guedel, with Martin Bioones; that total findings of \$155.045, ranging from \$100 to \$15,000, had been returned against 63 Ohio, Kentucky and West Vira ginia firms in the two months period, bringing to \$365,000 the total findings in the fifth region since 1943

"The problem is a serious one," he said. The function of the enforcement division is not to impose penalties-as an end-but to obtain compliance with the wage stabilization program which has been elected to protect the American consumer

The rapid increase in the number of subterfuge and evasion cases, in which the employer deliberately attempts to give bidden wage increases to his employes, is as great a threat to the nation s war effort as violation of the non-strike, no-lockout pledge
